Irish Reprisals Strongly Condemned By British Press

London Times Calls Upon Government to Halt "Semi-Official Lynch Law"; Not Justice According to British Ideas, Says Graphic.

London, Sept. 28.—Serious anxiety over the recurrence of the "black and tan" reprisals in Ireland is reflected by English newspapers, which sharply call for the Government to halt what is described by The London Times as "semi-official lynch law." Earlier occurrences in Ireland passed without much notice here, but recent raids, especially those on Balbriggan and Trim and the lukewarm criticism of the "black and tan" police forces by General Sir Cecil Neville Macready, military commander of Ireland, are causing considerable disquietude.

Condemnation of recent disorders is not confined to newspapers which are avowedly sympathizers with the Irish Nationalist movement, the Conservative Graphic, which is an unsparing critic of the Sinn Féin, declaring:

"This is not calm and orderly justice and punishment according to British ideas. It must be stopped."

Methods of Opponents.
Charges that the Government is following the methods of its opponents are made by The Times, which continues: "Presumably there is a hope that the Government should be warned of the harvest it may reap. Ireland will be ground between the upper and nether millstones. The Archbishop of Canterbury has issued an appeal to all Christians to make national troubles the subject of prayer."

"Endeavors on either side in Ireland," he says, "have been defeated by prejudice, inflamed by passion, flouted or made powerless and liberty trampled, while capable men are striving eagerly, but vainly, to find a reasonable pathway through the darkening turmoil."

The standing committee of the Irish peace conference has passed a resolution recording its conviction that the reprisals "constitute an almost insuperable barrier to the success of the committee's efforts in the cause of peace."

In the meantime, reports from Ireland tell of numerous threats of further reprisals—circulated verbally or by posters. Warnings are alleged to have been given several towns in West Clare that they would be burned unless Captain Lendrum, resident magistrate of Kilmuckridge, who has been missing since Wednesday and who is believed to have been kidnapped in a raid on an early hour on Monday, was returned within 48 hours. The town of St. Neir suffered from a raid at an early hour on Monday. Shots were fired into houses, some of the inhabitants being roughly handled, but none was seriously hurt.

Investigation.
There is reason to believe that Dublin Castle is now seriously investigating the reprisals. Special officers have been sent to Trim and have reported on occurrences there. The Chief Secretary for Ireland is now conferring on the whole subject with the military and civil authorities in Dublin and elsewhere with the view to stopping the reprisals and the Cabinet in London is also taking the matter in hand.

It is explained there are two forces called "black and tan." One is composed of British recruits and the other largely consists of demobilized army officers who were engaged to arrange for the defence of threatened barracks in disturbed districts of Ireland. Both were in mixed uniforms of khaki and black, owing to a shortage of complete uniforms.

Dispatches do not disclose which element has been responsible for the raids.

At Belfast.
Belfast, Sept. 28.—There was a recurrence last night of the rioting and shooting which has been in progress here at intervals since the week end. The outbreak occurred in the old lodge road district, where shipyard workers were attacked by armed men. Seven persons were wounded by the

(Continued on page 4.)

**TENANTS PROTECTED
AGAINST EVICTION**
City Marshals Put Out of Business By New York Rent Laws

New York, Sept. 28.—Governor Smith yesterday signed the new rent laws, passed at an extraordinary session of the State Legislature for the relief of tenants. The new law, it is claimed, nullified 100,000 eviction proceedings, abolished moving day until November 1922 and put city marshals out of business. The latter had been reaping a harvest from evictions cases.

The housing bills approved by the governor included measures which permit localities to exempt newly constructed dwellings from local tax and list State land bank bonds as legal securities for State and municipal sinking funds.

The other measures are intended mainly to adjust the landlord and tenant situation in New York City. They aim to suspend the operation of summary proceedings, to afford tenants protection against eviction. One bill aims to prevent landlords from curtailing heat and hot water and other service to get rid of tenants.

FARMER-VETERAN CANDIDATE IN YALE

Col. E. C. Edgett, D.S.O., to Oppose J. A. McKelvie in Riding

Penticton, B.C., Sept. 28.—Colonel E. C. Edgett, D.S.O., veteran, will oppose J. A. McKelvie as Farmer-Veteran candidate in the by-election to replace Hon. Martin Burrell, resigned Dominion representative of Yale riding. He was proposed by the G.W.V.A. convention, accepted by the United Farmers of British Columbia convention and will run under the colors of both Farmers and Veterans.

Platform Planks.
Eleven planks will be contained in Colonel Edgett's platform. They touch upon questions affecting veterans, farmers, workingmen and the citizens at large. Three of the principal planks deal with Oriental and other immigration questions and the tariff.

The institution of a strict medical and educational test for immigrants at the point of embarkation and the exclusive of Orientals in the Dominion is advocated.

Colonel Edgett's supporters believe that as a preventive of foreign fruits being dumped on Canadian markets at less than the cost of production the retention of sufficient duty on fruit is essential and they also recommend a tariff—beard similar to the Railway Board with Farmers' representatives on it.

With a view to meeting any possible reduction in revenue, which may arise from the revision of the tariff, states an addendum, "we recommend that the Tariff Commission consider the possibility of raising revenue from the protected manufacturing industries by imposing upon such industries a pro rata tax on the net profits equal to the amount of protection afforded."

Ottawa, Sept. 28.—Active measures are now being taken in the return to alien enemies, interned during the war, but not deported, the property, securities and money taken from them and still held.

During the war, a large number of alien enemies were interned at various camps throughout Canada, such as Fort William, Kapuskasing, Amherst, N. S., and Vernon, B. C. Shortly after the armistice these camps were discontinued and the prisoners were either released or returned to their native country. While the war was in progress, the internment operations were carried on under the administration of the Department of Justice.

In many cases prisoners were employed at various kinds of manual labor and earned substantial sums. For the purpose of completing the work of this branch, it has been attached to the Department of the Secretary of State, and it is announced "active measures are now being taken to return to the prisoners who have been released, but not deported, any sums or property to which they are entitled or who have earned money which may have been taken from them."

The work is being carried on along with that of the clearing office, the property of deported alien prisoners being dealt with under the provisions of the treaty through the clearing office.

Applications are to be addressed to the Department of the Secretary of State (internment) Ottawa.

**SIXTH BANK AT
BOSTON SUSPENDS**

Affairs of Fidelity Trust Company Taken Over To-day

Boston, Sept. 28.—Bank Commissioner Joseph C. Allen to-day took over the affairs of the Fidelity Trust Company. His action marked the closing of the sixth banking institution in this city within two months.

The others were the Hanover Trust Company, of which Charles Ponzi, the "financial wizard," was a director and largest individual depositor; the Prudential and Cosmopolitan Trust Companies, and two small private banks.

The capital of the Fidelity is \$2,000,000, and according to the latest available statement from the company had a surplus of \$700,000. Its deposits totalled about \$18,000,000. The reasons for the closing of the bank, Commissioner Allen said, were "the steady withdrawals of deposits and slow and doubtful loans."

**Evacuation of Plants
In Italy Proceeding**

Milan, Sept. 28.—The delivery of all works and factories to the employers is proceeding almost without incident. Red flags have disappeared and the red guard has disbanded.

The clerks of the technical staff of the Pirelli rubber works have gone on strike as a protest against the return to work of those men who attacked and insulted them. The strikers declare they will not return to work until the offenders are punished. Reports from Genoa and Turin and the greater part of the Province state that the delivery of the works to the owners is taking place peacefully.

WOUNDED CONSTABLE SECURED DESPERADO; THEN COLLAPSED

Hamilton, Ont., Sept. 28.—Two revolvers in the hands of a pair of suspected shopbreakers peppered away at Police Constable Thomas Merritt early this morning when he attempted to arrest them. The constable was hit four times, but managed to wrest the revolver away from one man, stun him with the butt of the gun and handcuff him. When help came the police were trying vainly to subdue the other desperado, who was conscious over the shackled body of his prisoner, a man named Carroll. The other man escaped.

FRENCH AIRMAN WINS INTERNATIONAL RACE

Sadi Lecointe Sets New Record—Other Aviators Withdrew

Etampes, Sept. 28.—(Associated Press)—Sadi Lecointe, the famous French aviator, to-day won the International Aeroplane Race for the James Gordon Bennett Trophy. He covered the course of 300 kilometres, or 186 miles in one hour, six minutes and 11 seconds. S. P. Raynham, the sole British representative withdrew after covering the first lap. After the race had been in progress less than an hour to-day the contest had narrowed down to a possible three competitors, one of them, Major P. W. Schroeder, an American.

Major Schroeder shortly afterward also was eliminated, withdrawing after flying 100 kilometres because of engine trouble. Howard Rinehart, the other American, withdrew soon after starting, because of difficulty with the steering mechanism. The Americans thus were out of the race.

De Romanet, one of the French competitors withdrew after the second lap.

Kirch, a second Frenchman, withdrew after making 200 kilometres in 48 minutes, 52 seconds.

The only competitor remaining in flight at this time was the third French entrant, Sadi Lecointe who had made 200 kilometres in 43 minutes, 42 seconds, a new world record.

Lecointe finished in one hour six minutes 11 seconds.

De Romanet after spending twenty minutes in adjusting to his machine re-entered the race and finished in one hour 39 minutes 53-55 seconds.

**FOUR KILLED IN
TRAIN SMASH ON
C. N. R. AT CANORA**

Yorkton, Sask., Sept. 28.—Four men were killed and several injured in a rear-end collision between Canadian National freight trains at Canora, Sask., according to word received here.

List of Dead.
Winnipeg, Sept. 28.—Four men were killed and two injured at 4.30 a. m. to-day in a rear-end smash when a freight train on the Canadian National Railway ran into a stock train running ahead, five miles west of Canora, Sask.

The dead were: M. Steinberg, Canora, Sask.; D. Vinetsky, Canora, Sask.; Paul House, Ouelwa, Iowa; Harold Quinn, Wadena, Sask.

The men killed and injured were stockmen in charge of animals on the train which was ahead.

Four cars were derailed and damaged by the impact when the locomotive of the rear train hit the end car of the train ahead.

None of the members of the train crew were hurt. The bodies of five of the accident have been received at the Canadian National offices here.

**WHITE SOX LOSES
HOPE OF PENNANT**

Charles Comiskey Suspends Players Indicted on Baseball Charge

Chicago, Sept. 28.—Charles Comiskey, president of the White Sox, suspended every member of the team indicted to-day in connection with the alleged fixing of baseball games. Seven of the eight indicted are affected. "Chick" Gandil, the eighth, is not playing this year.

The suspension practically kills all hope of the White Sox winning the American League pennant this year. Assistant State Attorney Regillo announced that Cicotte was taken in custody after leaving the grand jury room and is now in charge of William Sullivan, a detective of the State Attorney's office. He declined to say where Cicotte would be taken.

True Bills Returned.
Chicago, Sept. 28.—The Cook County grand jury this afternoon voted true bills against the following baseball players in connection with an investigation of alleged "throwing" of world series games last year: Eddie Cicotte, Claude Williams, "Chick" Gandil, "Happy" Felsch, Charles Riesberg, Joe Jackson, Fred McMullin, "Buck" Weaver. All are members of the Chicago Americans.

PERTINENT POINTS FROM LIBERAL LEADER'S SPEECH

"We believe that the time has come when a downward revision of the tariff is necessary."

"It is not a question of free trade or protection. Under Liberal policy it will be a tariff for consumers and producers."

"The policy of the Liberal Party is substantial reductions on the necessities of life, the things that go to make the food, clothing, shelter of the Canadian people; that other articles essential to production should be placed on the free list; that instruments of production in the basic industry of agriculture, mining, lumbering and fishing, there should be substantial reduction of duties."

"We need more effective machinery to grapple with the evil of profiteering."

"What is needed in Canada to-day is some machinery of Government which will make the return to capital in the shape of profits and the return to management in the shape of salaries just as public as the return to labor in the shape of wages."

"We stand on the firm foundation of complete autonomy of self government of concern to our Dominion."

"We believe that in inter-Imperial and international relations there must be open diplomacy."

"There is nothing to withstand ultimate and speedy victory in the triumph of Liberal ideas and policies except a failure to co-operate in a spirit that has regard primarily for the good of all."

"The aim of Liberalism to-day is to seek a wider freedom for the masses in social, political, religious and industrial life."

"What is needed to-day as the foundation of all else is to restore the control of the people over Parliament, and to restore the control of Parliament over the Executive."

"The only effective means of restoring to the people the control over Parliament is that which a general election affords. By-elections are of no account in giving expression to the will of the people as a whole."

"It is the Government, not the people, who are Bolshevists."

"This acquisition of an entire railway system (the Grand Trunk) under an agreement to which the people's representatives in Parliament were denied the right of any real voice of approval or amendment is about as glaring an example of autocratic control by an executive and the ignoring of Parliament as the annals of any legislative assembly in the world will disclose."

"The consumers of this country are to-day without any protection from these great industrial combines."

"The first and most obvious method of reducing the cost of living is to make taxation lighter."

"Rigid retrenchment in public expenditures and economy in the administration of our national affairs is the first requirement in this connection."

"The public net debt in nine years has increased from \$45.00 per head of population to \$283.00."

"The men who are administering the affairs of Canada to-day became so accustomed during the war to deal in millions of dollars that expenditures involving thousands are beneath their consideration."

"What is needed is not increased outlays for war purposes, but increased production to help meet the war obligations which war has imposed."

**COAL EXPORT ORDER
HAS BEEN AMENDED**

Shipments to States By Water Require Permit From Railway Board

Ottawa, Sept. 28.—On the recommendation by the Board of Railway Commissioners, an Order-in-Council has been passed amending the Order adopted some weeks ago forbidding the export of coal from Atlantic ports excepting to the United States and Newfoundland. The amending Order-in-Council provides that in the case of each shipment by water to the United States, an export permit must first be secured from the Railway Board.

It explained that the purpose of the Railway Board is providing for the issuance of permits to exporters is not to restrict exports across the border but to make consignees satisfy the Board the coal is for United States consumption. The issuance of permits will also make it easier to keep track of export movements of coal.

In regard to Newfoundland an arrangement also has been made which prevents Canadian coal sent to Newfoundland being again shipped out of that colony.

Dismissed.
Ottawa, Sept. 28.—(Canadian Press)—Because the Board of Railway Commissioners has, as yet, no jurisdiction over the Intercolonial Railway, it has found it necessary to dismiss the application of the Board of Trade of Sydney and North Sydney, N.S., for the institution of special rates on import freight coming into and leaving those ports. The application of the two Boards was heard by the Railway Commission yesterday.

**ERLANGER TO DISSOLVE
PARTNERSHIP WITH KLAW**

New York, Sept. 28.—Dissolution of the partnership of Abraham L. Erlanger and Marc Klaw, theatrical promoters, is sought by Mr. Erlanger in an action filed here to-day. The complaint asks the Court to appoint a receiver if necessary and to award Mr. Erlanger the sum of \$375,199, with interest amounting to \$18,559, which it alleges reports the value of capital in the theatrical business of the partnership which Mr. Erlanger had allowed to accumulate.

Hon. W. L. M. King Urges Social Spirit And Larger Freedom

Liberal Leader Opens Tour of Western Canada Here With Definition of Party's Policy; Ernest Lapointe, M.P., of Quebec, Charms Audience With His Oratory

Three thousand persons, a large proportion of them women, heard the Hon. William Lyon Mackenzie King, M. P., leader of the Canadian Liberal party, at the Arena last night, deliver the opening speech of his tour of Western Canada and make his first pronouncement, in the West, on the policy of the party which he was recently chosen to lead.

Hon. Mackenzie King developed these as the vital items of his policy:

1. Tariff revision to benefit the consumer as regards the necessities of life, such as food and clothing; reduction in the tariff on instruments essential for the basic industries of agriculture, mining, lumbering and fisheries.

2. Not free trade but the raising of part of the revenue of the country by customs duties which at the same time will aid special industries.

3. Protection of the public from the profiteers.

4. Greater freedom for the masses with greater and closer control over Parliament and through it over the Government.

5. Ending of the "war habit of mind" in government, and the high expenditures which have accompanied it.

6. Reduction of taxation by rigid economy in public affairs.

7. Development of the great national party system of government as opposed to government by classes and sections.

8. Autonomy in home affairs with the strengthening of imperial unity by co-operation and conference.

9. Propagation of the idea of good-will internationally and intranationally, and the elimination of sectionalism.

10. Development of Canada, not by restriction, but by the promotion of trade with the Orient on this basis as well as with Europe on the East coast.

11. Counteraction of Bolshevism, W. W., and other destructive tendencies which are fostered by and come as a reaction to the repressive policies of the present Ottawa Government. This to be achieved by making the Government more responsive to the will of the people with representation for all.

12. Wider recognition of the rights of labor to representation in the shaping and control of industrial policy.

Sewer of Liberal Seed.
The Hon. John Oliver, Premier of British Columbia, welcomed Hon. Mackenzie King as "the sower of Liberal seed."

"What is this Liberal seed?" the Premier asked.

"It is that of 'do unto others as you would have them do unto you.'"

"Right in that sentence is the tap root of Liberalism, and in that doctrine lies the essence of all true Liberalism and of humanity."

"Hon. Mr. King does not come as the apostle of any new Liberalism. He comes as the apostle of the old Liberalism."

Foremost Political Student.
"We have in the present Liberal chief, the foremost student of political science on this continent."

"There is not a Liberal in Canada who is not loyal behind the present Liberal chief."

W. L. M. King, president of the Victoria Liberal Association, presided. He expressed thanks to all responsible for the success of the first meeting of the Mackenzie King tour of Western Canada.

"At no time in the history of Canada has it been more important for you and to be well versed in all the policies that are before our country," said Mr. King.

Sure Liberal Triumphs.
William Duff, M. P., of Lunenburg, N. S., touched briefly on naval and shipping matters and made an appeal for an early Dominion election.

In the next election, Mr. Duff predicted, there will be returned seven Liberals out of the eleven members of the New Brunswick Liberal party straight from Prince Edward Island, and fifteen Liberals out of sixteen members for Nova Scotia.

Not Justified in Holding On.
Ernest Lapointe, M. P., successor to Sir Wilfrid Laurier as the representative of Quebec East, dealt with the absence of justification for the present Government holding office any longer, as it was elected on the selective franchise basis only during the war, and the problems before the country have changed entirely.

Mr. Lapointe went into the income composition of the so-called National Liberal Conservative party which is headed by Premier Arthur Meighen.

Platform Charm Appeals.
Those who heard Mr. Lapointe commented afterwards on the charm of his "diction. The accuracy in his choice of language and the grace with which he handled his subject. Old-timers remarked on the many resemblances to the platform oratory of Sir Wilfrid Laurier.

The War Veterans band provided music during the evening. Three hundred old-timers were on hand, evidently attending the meeting for information and material on which to form their political opinions, attentively listened to everything that was said. The crowd with enthusiastic applause when telling points were brought out.

Sees Trade With Orient.
Hon. Mackenzie King rose to speak at 9.50 o'clock. He finished at 11.12.

"It is worth crossing the continent to receive the expressions of welcome we have had here from the people, from Premier Oliver and his leaders," said Hon. Mr. King.

He explained that this is the eighth time he has visited British Columbia. On occasions he has spent nearly a year in the Province studying industrial and labor conditions in mines and railways.

"Last time I came here I was on my way home from China and Japan, where I was studying conditions."

Hon. Mr. King went on, "Over there I realized the great opportunities for trade there is with this country. 'If it is ever the opportunity of the Liberal party to conduct the affairs of this country, our policy in matters of trade will be the promotion of trade to the Orient as well as to Europe. Our aim will be the development of this country not by a policy of restriction of trade but by the promotion of trade and the widening of opportunities."

"I still await New Epoch."

Hon. Mr. King referred to the present transition period, following the stirring of the world's soul to its very depths by war.

"During this time much was said about the interdependence of all

(Continued on page 14.)

ing the Schchara River. Further to the north the Poles have crossed the Niemen. To adequately police these roads was a work of great difficulty.

ISLAND ROADS

Proposal to Make Cowichan Lake Road Main Highway to the West Coast.

Cowichan Lake, Sept. 27.—The Cowichan Lake branch of the Duncan Board of Trade met September 24 at the Riverside Inn. Those present from Duncan were: Hugh Savage, president; Kenneth Duncan, M. P. P.; Mayor Pitt; Messrs. F. Smithson, C. H. Dickie, Currie G. White, A. Green, Corbushie and Mr. Fox. The Cowichan Lake branch was represented

by J. Castley, chairman; A. Lockwood, secretary; Messrs. Nason, Poirier, Johnson, Hardinge, Scholey and Mr. Hodson.

Kenneth Duncan, M. P. P., discussed the condition of the roads and bridges, also the possibility of making the Cowichan Lake Road the main highway through to the West Coast. This was considered a far more feasible plan than the proposed road to the West Coast.

No further word has been received from Ottawa concerning the proposed public landing at the foot of the lake, but this matter is being strongly urged by the members of the Lake branch.

MONTENEGRINS WERE TORTURED IN CHARGE

Terrible Crimes Committed During Serbian Occupation, Says Commission

Washington, Sept. 28.—Terrible tortures and hardships were inflicted upon the Montenegrins by the Serbian army of occupation, according to an official report of a commission of investigation appointed by the Montenegrin Foreign Office, after the withdrawal of the Serbian troops. Copies of the report have been transmitted to European Governments, and one is also understood to have been submitted to the State Department.

The committee charges that the "crimes in Montenegro were ordered by the Serbian authorities either to force those persecuted to declare allegiance to the Serbian King or to obtain information about their male relatives who had escaped from the Serbian authorities."

"Brutal violence and abuse are recorded," says the report. "Owners of homes and huts were compelled to set fire to their humble dwellings, and then the soldiers pushed them among the flames, where they perished."

"Women and children shut in the homes were submitted to the additional torture of bees; they even put cats under the skirts of women that were then sewed around the limbs, the animals then whipped, so causing awful pain to the victims. Old people, women and children, were beaten mercilessly with heavy sticks or iron rods and also with wet ropes. Inmates of prisons were left without nourishment sometimes as long as ten days. The bodies of the dead in the prisons were left among the prisoners for several days, the prisoners were forced to put their feet in fire, and nails were thrust under their finger nails."

"Youths were hung up by the hair and plunged into water up to their mouths. The corpses of Montenegrins, monstrously murdered, were left in the middle of streets to be the prey of dogs. Mothers of the rebels were thrown upon their fire; old men had their teeth pulled; women were violated."

The commission said it examined more than 100 eye-witnesses, among them several of the victims themselves, who succeeded in escaping.

LENINE SELECTED BY GERMANY TO START REVOLUTION

Washington, Sept. 28.—Alfred Nagle, diplomatic representative of the Latvian Government, who was ordered deported from New York, was responsible for the selection of Nicolai Lenin to head the Bolshevik revolution in Russia, according to reports in the hands of the State Department. These reports state that some time during the Spring of 1917 Nagle was employed by Von Bethmann-Hollweg, then Imperial German Chancellor, to go to Switzerland and there choose the best revolutionaries to send into Russia, to overthrow the Czar's government. In a three-hundred word report, Nagle informed the chancellor that Lenin was the most radical leader, but urged the Germans not to use him. Lenin, however, was sent by the Germans to Russia on the now famous sealed train.

HEAD OF C. P. R. HOTEL SYSTEM WILL RETIRE; BUYS ISLAND FARM

Vancouver, Sept. 28.—It is understood that F. L. Hutchinson, general manager of the C. P. R. hotel system, is retiring at the end of the current year. He has purchased 200 acres of farming land near Chemainus, at the mouth of the Chemainus River, and plans to take up farming next year. The property, which is known as "Swallowfield," was formerly the property of Captain E. Gore-Langton.

CLOSING OF BANKS IN BOSTON CAUSES ALARM

Boston, Sept. 28.—Three Boston banks were forced yesterday to invoke the law requiring 30 days' notice of withdrawal from savings deposits, as a measure of protection for depositors. The depositors had become alarmed over the local banking conditions as a result of the closing of five banks in the last two months and of the Ponzi fiasco. Officers of all three—the Tremont Trust Co., the Fidelity Trust Co., and the Dorchester Trust Co., asserted their institutions were solvent, but lacked ready cash to meet the heavy demands made upon them by thousands of depositors who desired to withdraw their accounts at once.

The bank officers were joined by Governor Coolidge, Bank Commissioner Allen and city officials in statements assuring the public that the Boston banks were in sound condition and that funds entrusted to them were safe. At all three banks it was announced that all the business in commercial deposits would continue as usual.

The action was taken after hundreds had called to withdraw their accounts. The officials acted entirely upon their own initiative, it was announced.

The Fidelity Trust Company will be taken over by the State Bank Commissioner.

COWICHAN LAKE NOTES

Cowichan Lake, Sept. 27.—Notwithstanding the heavy rains of the past week some 300 cords of logs were shipped to Chemainus and Crofton.

D. O. Lewis, resident engineer of the C. N. R., expects to have a bridge game up here about the first of the month.

Several local anglers have captured some fine baskets of rainbow trout, ranging from a pound upward. This shooting has not been so good owing to the heavy rains, but deer seem plentiful, and several have been shot.

Mrs. Oscar Scarf and her little daughter have returned to the Lake after spending a few days with her mother at Sooke.

Mr. and Mrs. E. Rothwell and their daughter are leaving the Lake for San Francisco.

Mrs. Hanson has returned to Duncan after spending a delightful two weeks at the Lake as the guest of Mrs. H. Marsh and Mrs. Keast.

C. Hanson returned to Duncan on Saturday after spending a week at "Greendale."

J. Palmer has returned to the Lake after an absence of three months.

EARTHQUAKE IN SICILY.

London, Sept. 28.—A violent earthquake is reported to have occurred at Giarre, Sicily, at the base of Mount Etna, says a Rome dispatch to the Exchange Telegraph Co. The "quake" lasted for ten seconds. One village was destroyed and many persons were injured.

WOMAN'S BEST LAXATIVE

Proved Every Day That Dr. Hamilton's Pills Are Just Right For Woman's Ills.

Little wonder woman suffers so much from constipation. She always hesitates, continually puts off taking medicine. Of course a woman's system is delicate, is easily injured by drastic purgatives. Her experience with harsh medicines makes her cautious, and to her great injury, chronic sluggishness of the system is permitted.

Few pills are suited to the actual needs of woman—they are too strong. But there is a good woman's laxative, and it combines mildness with thoroughness of activity—it is known to the people of many nations as Dr. Hamilton's Pills, which never gripe, never cause nausea and are safe to use no matter what the condition of the system or the state of health may be. A naturalness and regularity of the system, so important to every woman, is quickly acquired by the regular use of Dr. Hamilton's Pills. As a health-bringer, as a tonic, as an all-around ladies' medicine, there is positively nothing so efficacious as Dr. Hamilton's Pills of Mandrake and Butternut; 25c. per box, at all dealers.

TIED HAND AND FOOT YOUNG GIRL SWIMS MILE AND A HALF

Covers Distance In Seventy Minutes; Eats Only Ice Cream

New York, Sept. 28.—Her wrists and ankles bound with tape, Marion Goebel, a fourteen-year-old school-girl, swam from Higgs Beach, Clason Point to College Point. The distance is one mile and a half, and Marion covered it in one hour and ten minutes.

The object of this freak performance was to prove to the public that the water is safe, if persons thrown into it will keep their heads above water.

Mission in the second grade at the Washington Irving High School. She learned to swim four years ago.

In preparation for her performance, Marion, at 1 p. m., ate a dinner of roast beef, boiled potatoes, green peas and a pint of ice cream. At 2:30 she had another pint of ice cream, and then put on her bathing suit, which is of the two-piece style worn by boys.

Her idea at first was to make the swim with her hands and feet fastened with handcuffs, but it was found that the steel cut into her flesh and the tape was substituted. Swimming with her to insure safety were Warren Whalen, Charles Mathe, Charles Eschenbach and Jack Howard, all of Higgs Beach.

Two members of the Clason Point Volunteer Life Saving crew, in a dory, kept within easy reach.

During the swim the girl's head was under water three seconds to every one second it was above. Frequently she threw herself from the water for breath, and would laugh and call for the others to "come on."

When College Point was reached and Marion was untrapped, she plunged back into the water with the challenge: "I'll race you to the launch," which was fifty yards from shore. The men who had swum with her followed, but she beat them.

When asked if she were not tired she replied:

"No, I'm not tired; but I'm hungry."

As soon as Higgs Beach was reached again Marion was taken to a restaurant. A cup of coffee, with a piece of sponge cake and five plates of ice cream, were placed on the table before her. She sipped the coffee and the cake, and ate the ice cream.

PACKERS' PROPOSALS MAY BE REJECTED

Washington, Sept. 28.—The Government may reject almost in its entirety the proposal of the Big Five Chicago Packers for disposition of their stockyard interests.

Department of Justice officials will file the Government views of the packer plan in the district of Columbia district court to-day. It was understood a counter-proposal would be made by the Government. The case will be heard finally Oct. 2.

Proposals of the packers provided for transferring their stockyard interests, estimated to involve about \$40,000,000, to Frederick H. Prince & Co., Boston bankers. This suggestion was said to be regarded by Government lawyers as meaning concentration of control to a greater degree than existed under the packer management. The nature of the counter suggestion was not disclosed, nor was it known whether Attorney-General Palmer would oppose extending the time for development of a new plan by the packers.

COUNTESS MARKIEVICZ ARRESTED IN DUBLIN

Dublin, Sept. 28.—Countess Georgina Markievicz, Sinn Fein Member of Parliament for St. Patrick's division of Dublin, was arrested Sunday night in a suburb of Dublin. The authorities have been seeking her for a long time. With the countess were a journalist and Zan McBride, son of Maude Gonne MacBride, the "Irish Joan of Arc," and widow of the executed Sinn Fein leader, Young MacBride also was arrested.

The Countess was passing under the name of Mrs. McDonald. She was taken to Bridewell prison, in Dublin.

DISASTROUS FIRE.

St. John, N.B., Sept. 28.—A fire which destroyed the mill property of the Continental Lumber Company at Charlie River, a few miles from Campbellton, in Restigouche County, also destroyed 15,000,000 feet of log lumber.

"Here's another book on 'How to Get into the Movies.'"

"Why on earth doesn't somebody write a book on how to get a seat after you do get in?"—Life.

To-day, It's Suits

Yesterday, we questioned the advisability of quoting prices when advertising Women's Ready-to-Wear, suggesting that prices alone may create a mistaken idea of the garments advertised.

—To mention prices, we have suits ranging from \$49.50 to \$250.00.

—A selection that will surely satisfy the most exacting.

—Included in our assortments are sedate styles, snappy styles and styles which, for richness, are not excelled elsewhere.

—The materials are the best, including all the season's "popular" fabrics, together with those which have stood the test of time.

—In design and make they leave nothing to be desired.

—Our prices are lower than you would be asked for similar suits elsewhere—MUCH LOWER.

—Again we ask you to "shop" around.

—We welcome the opportunity to substantiate the above statements.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

For Colds, Pain, Headache, Neuralgia, Toothache, Earache, and for Rheumatism, Lumbago, Sciatica, Neuritis, take Aspirin marked with the name "Bayer" or you are not taking Aspirin at all.

Accept only "Bayer Tablets of Aspirin" in an unbroken "Bayer" package. There is only one Aspirin—"Bayer"—You must say "Bayer."

Aspirin is the trade mark registered in Canada of Bayer Manufacture of Monocacetic Acid of Salicylic Acid. While it is well known that Aspirin means Bayer Manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

HYDROPLANE SITE IS SOUGHT AT KAMLOOPS

Vancouver, Sept. 28.—A sub-station site will be selected at Kamloops shortly, Major S. McLaurin, Superintendent of the Government hydroplane station at Jericho, announces. It is proposed to fly to Kamloops from Vancouver and examine possible landing places on the way, and on arrival at Kamloops a permanent sub-station will be selected. Next year an aerial patrol will be placed at Kamloops for forestry patrol work.

Major McLaurin tried out an H.S. 2-L Curtiss seaplane, the first of the machines to be ready, last week, and announced his satisfaction with its performance, which was most gratifying. He is particularly pleased with the work of the mechanics in the rigging of the plane as it is the first time they worked on a machine of this type. Major McLaurin is taking up the plane to-day, and expects to take some photographs to demonstrate the facility of mapping the ground from the air. A flight to

RHODES SCHOLARSHIP.

Seattle, Sept. 28.—Kenneth G. Cole, a major in the College of Liberal Arts at the University of Washington, has been selected as the representative of this State to receive the Cecil Rhodes scholarship to Oxford University, Eng., for 1921. The scholarship committee announced.

A 10-Day Tube of Pepsodent, to show you how to end film. See below.

Never Sleep With a film-coat on your teeth

All statements approved by authorities.

Millions of people on retiring now combat the film on teeth. They fight it day by day. And those glistening teeth seen everywhere now form one of the results.

You owe yourself a trial of this new teeth-cleaning method. Dentists everywhere advise it. The results it brings are all-important, and they do not come without it.

What film does

Your teeth are coated with a viscous film. Feel it with your tongue. It clings to teeth, enters crevices and stays. And dentists now trace most tooth troubles to it.

The ordinary tooth paste does not end film. So, despite all brushing, much film remains, to cause stain, tartar, germ troubles and decay.

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea.

Ways to combat it

Dental science, after years of research, has found effective ways to fight film. Able authorities have proved their efficiency. Together they bring, in modern opinion, a new era in teeth cleaning.

These five methods are combined in a dentifrice called Pepsodent—a tooth paste which complies with all the new requirements. And a ten-day tube is now sent free to everyone who asks.

Watch the teeth whiten

You will see and feel results from Pepsodent which brushing never brought you heretofore. A week's use, we think, will amaze you.

One ingredient is pepsin. One multiplies the starch digestant in the saliva, to digest all starch deposits that cling. One multiplies the alkalinity of the saliva to neutralize mouth acids.

Two factors directly attack the film. One of them keeps the teeth so highly polished that film cannot easily cling.

Watch these effects. Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. Note how teeth whiten as the film-coat disappears.

The book we send explains all these results. Judge what they mean to you and yours. Cut out the coupon so you won't forget.

AN INCREASE OF EIGHT MILLIONS IN NOTICE DEPOSITS

Ottawa, Sept. 25. — (Canadian Press.)—An increase of approximately \$8,000,000 in notice deposits is an outstanding feature of the Au-

gust bank statement issued to-day by the Department of Commerce. A decrease of about \$10,000,000 in call loans outside Canada, as compared with July is also noticeable. Call loans in Canada have also decreased considerably. In other particulars the August statement does not vary much from that of the previous month.

When the German army broke into Belgium and swept through the country one detachment was billeted in a farm-house. A private, wandering through the fields, came upon a young girl sowing seeds. "Tah!" he sneered. "You shall sow, but we shall reap." "I shouldn't be at all surprised," she replied sweetly. "You see, I'm sowing hemp." — American Legion

SIDELIGHTS ON LIFE IN RUSSIA

Interesting Impressions of
Press Correspondent De-
ported by Lenine

New York, Sept. 28. — (By Canadian Press.)—A Canadian dollar is worth from two to three thousand paper rubles in Moscow, and at this rate of exchange the pay allowed Russian workmen by the Bolsheviks would amount to from two to four dollars per month.

This is one of the sidelights on present day life in Russia, as it is disclosed by reports just received from an Associated Press correspondent, who was deported from Lenine's domain to Finland because he made a trip across Russia from Vladivostok without advance Soviet authorization.

The correspondent, who filed his despatches at Helsinki and Tallinn, in Finland, had opportunity of viewing conditions at first hand, for he was not accompanied by any agents of the Soviet Government. The picture of the country which the foreign correspondent generally sees, he declares, is a censored view obtained while being piloted around by a Bolshevik interpreter. Without this attendant the correspondents could not leave the Bolshevik guesthouse. The officials continually probe visitors for their impressions and they are shown only what is believed will impress them favorably.

An interesting picture of Moscow and Petrograd is presented by the Associated Press correspondent in his despatches. The whole country contributes to the upkeep of Moscow, he declares. From as far east as Irkutsk shelves of shops have been stripped of supplies and manufactured articles, while even the household goods of well-to-do individuals have been shipped to the Soviet capital as well as the war booty taken by the Bolsheviks after they occupied Siberia.

Few Stores Open

"Only a few stores are open in the city," says the correspondent, "there being block after block of dirty shop fronts long used in the past for posters of Bolshevik propaganda, usually featuring the likenesses of Lenine, Trotsky and Marx. Markets and bazaars are open, however, and it is possible in such places to buy a great variety of food, including meat, white bread, fruits and sugar.

"Prices in the bazaars preclude purchases except by speculators, and by those earning more than the three to five thousand rubles monthly, the amount which the Bolsheviks allow workmen. In these markets the American or Canadian dollar brings from two to three thousand rubles.

"The bazaars give a fairly genuine insight into the real life of Moscow. There a thousand speculators, made up of soldiers, workmen, and women, daily risk arrest for trading in supplies other than the black bread, soup and cooked grain, which the Government has limited.

"While the masses of the people struggle to obtain a daily supply of food, the extra-rationed classes of Government officials eat plentifully of white bread and meat at the Bolshevik guesthouse. The problem of securing food has become a chief concern of the cities. Garden-grown potatoes and cabbages are expected to make the populous centres partially independent of the country for supplies this winter.

After describing the street scenes, in which many apparently well fed and dressed people are noticeable, the correspondent adds:

"It is apparent that behind the curtain of appearances is the real Moscow. The well dressed persons appearing, it is said, are Soviet officers and commissars and their friends or favorites, who have been permitted to requisition the supplies remaining in Moscow or being sent in from Siberia and other reclaimed districts.

Military Rule

"An atmosphere of military rule permeates Moscow more than any of the other cities. The population lives under a constant nervous strain and few are able to avoid arrest by the Supreme Counter-Revolutionary Committee. Persons disappear into prisons and no charges are preferred against them. If they are finally set free, they encounter the greatest difficulties in living. The popular saying in the city now is that Moscow's population is divided into three classes: Those who have been imprisoned, those in prison, and those who will be.

"Moscow's pre-war population of a million and a half is now estimated at half a million.

Petrograd

"Petrograd, one of the busiest and gayest capitals in the world, is a city of deserted streets, with only scattered groups of people in those centres which were formerly the scenes of great activity.

"Along the banks of the Neva from the Winter Palace, where Nicholas was last seen alive, down to the Alexander Nevsky Bridge, cordwood is piled high along the beautiful marble and stone balustrades and throughout the streets. It is being unloaded by enforced labor. After the conscript labor finishes its work groups of men and women gather through the night to carry away stray bits of wood remaining for their winter supply of fuel. Women are among the workers on the barges standing waist-deep in the water-logged craft and handling big cross-cut saws.

"The food prices at Petrograd are generally about fifteen per cent higher than at Moscow, where at the end of July bread sold for 4,000 rubles a pound. Pork then was selling for 5,000 rubles; salt, 1,000 rubles; black bread, 1,000 rubles; small white rolls, 200 rubles each; potatoes, 300 rubles, and eggs 300 rubles each."

Are You Run-Down? Do You Lack Ambition?

If one is not in good health, life is not what it should be. CANCER IS CAUSED BY SALT, NOTED DOCTOR ANNOUNCES

Malady Cured By Elimination
of Calcium Chloride and
By Diet

ANIMAL EXPERIMENTS USED TO TEST THEORY

New York, Sept. 26. — It is the theory of Dr. Edward Percy Robinson, of New York, that cancer is produced by too much salt (calcium chloride) in the blood, and that it can be cured by administering potassium nitrate. Dr. Robinson has published several articles on this subject. He now returns to it in the Medical Record, citing eight cases of unquestioned cancer treated by this method, all of which are decidedly improved and several of which seem to be cured.

In support of his theory Dr. Robinson cites the fact that cancer is rarely found among the inhabitants of Japan, China, Korea, the Philippines, India, Siam and Egypt, who are almost exclusively vegetarians. In these countries potassium nitrate is found, and he surmises that it finds its way into the human system with the vegetables, of which it is a constituent.

"Furthermore," he continues, "it appears that animals living in a wild state are also free from cancer, but develop it as soon as they are brought into captivity, domesticated and fed the diet of modern civilization. For example, it is not uncommon to find house dogs and cats afflicted with cancer. The writer was fortunate to discover accidentally a cat with cancer of the lip, which served to verify the presumption that there is in or about civilization something which predisposes to the development of cancer—and this something is common table salt. This cat is four years old and came into the possession of the family when a kitten.

"Believing in the popular idea that salt is good for animals, the cat's food was generously sprinkled with salt, for which the cat developed a taste. After three and a half years of this diet the cat became sick and its fur began to fall. It refused to eat and the under lip became sore and red. Local remedies were applied, but after six months of treatment, in which many things had been tried, the cat was taken to a veterinarian, who pronounced the condition cancer and advised that the animal be killed. With a history of an excess of salt in the diet, to cat presented an excellent opportunity to try the effect of potassium nitrate. Therefore, the same treatment was administered as was given to patients with cancer, with the result that the cat is cured and has grown a new coat of fur.

"That salt stands convicted of the cause of cancer seems to be based upon more than circumstantial evidence, for in all cases of cancer giving a history of an excess of salt in the diet its elimination by potassium nitrate has been productive of cure or in greatly ameliorating the condition and relieving pain.

"The writer has so far treated cancer of the bone, glands, liver, stomach, mucous membrane and skin. In not one case has the condition failed to respond to the influence of potassium nitrate. Some have been cured, others are under treatment and improving, the prognosis pointing to a favorable recovery.

"It may well be asked, how long will a patient remain cured of cancer? This may be answered by a person cured of alcohol remain sober? We read a great deal about educating the public regarding cancer, but it seems difficult to do so intelligently, when all that is now advised is a surgical operation. Hygiene and diet, the very moderate use of salt and plentiful amounts of fresh vegetable substances, containing the mineral salts of which protoplasm is composed, seem to the writer to be the synopsis of public education."

IRISH SYMPATHIZERS NOW THREATEN TO BOYCOTT TORONTO

Toronto, Sept. 28. — Mayor T. L. Church declined to make any comment upon the statement issued by the Quebec branch of the Self-Determination League for Ireland threatening to boycott Toronto industrial and financial institutions because of Mayor Church's action in banning the proposed meeting of the league in the Labor Temple here this week. With regard to the meeting of the Toronto branch of the Self-Determination League for Ireland, in St. Patrick's hall here on Sunday, Acting Chief of Police Dixon stated that while the Police Commissioners had banned the league from holding the scheduled meeting in the Labor Temple, the league had not been "banned" from holding meetings elsewhere.

MILITARY DISPLAY IN PARADE AT MUNICH

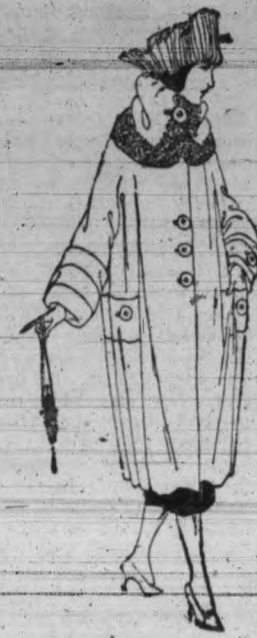

London, Sept. 28. — While a parade of the Einwohne-wehr in Munich on Sunday passed without untoward incident and serious misgivings of monarchists and monarchists proved unfounded, the procession was not without significance, and all the appearances of military display were present, save a dispatch to The London Times from Berlin.

BUILDINGS FIRED IN COUNTY MEATH TOWN

Armed Men Raid Trim in Re-
prisal for Attack on
Police

Trim, County Meath, Ireland, Sept. 28. — Because of the burning of the police barracks here, and the wounding of Chief Constable White, a number of armed men descended on the town Sunday night and burned buildings, attacked the residences of Sinn Feiners, and indulged in indiscriminate shooting. Several casualties are reported. The reprisals are alleged to be the work of the "Black and Tans" police. The regular police are taking steps to prevent further damage. Some thirty houses were burned and the fires are still blazing. Among the premises destroyed were a mineral water factory, which was the principal industry, and the market house. Practically all houses on both sides of the chief thoroughfare were set on fire. The damage was estimated at \$50,000. Two small boys were shot, one being seriously injured.

were visited in an endeavor to ascertain the authors of the attack on and the burning of the barracks. The Sinn Feiners were not found.

Piot.
London, Sept. 28. — The British Government has reliable information of the existence of a Sinn Fein plot, according to The Daily Mail. The newspaper says steps have been taken to check any efforts to dis-

turb the peace. Large forces of police are on duty every night in the neighborhood of Brixton Prison, where Lord Mayor Macdonnell is being held.

The Cabinet will meet during the week and will consider among other things, the question of the Irish reprisals.

MOTHER!

"California Syrup of Figs"
Child's Best Laxative

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless physic for the little stomach, liver and bowels. Children love its fruity taste. Full directions on each bottle. You must say "California."

TROUBLED WITH ITCHY ECZEMA In Rash On Face And Limbs. Cuticura Heals.

"I had been troubled with eczema on my face which took the form of a rash. Later it broke out on my limbs and they itched very much, causing me to scratch them until they were bleeding. The rash would often keep me awake at night. "I tried some remedies, which failed, and then thought I would try Cuticura Soap and Ointment. It was not long till the rash began to disappear, and I used three cakes of Soap and four boxes of Ointment, which healed me." (Signed) W. M. Hymers, Paris, Ont., Sept. 12, 1919.

Cuticura Soap to cleanse, Cuticura Ointment to soothe and heal. Soap 25c, Ointment 25c and 50c. Sold throughout the Dominion, Canada and Foreign. Cuticura Soap and Ointment without stamp.

LAST NIGHT'S MEETING.

Hon. W. L. Mackenzie King, leader of the Canadian Liberal Party, and his colleagues inaugurated their political tour of Western Canada last night under very favorable circumstances. A large, attentive and intensely interested audience, and admirable speeches which covered many important aspects of Dominion politics, marked a gathering which will be long remembered by those present.

Mr. King's speech, delivered in vigorous, impressive style and in a fine, resonant voice which could be heard all over the spacious building, was noteworthy for its moderation, reasonableness and absence of bitterness. His criticism of the autocratic methods of the Government, its negotiation of agreements and its execution of contracts involving the taxpayers in expenditures of millions without consulting Parliament, its extravagance, its failure to deal with the cost of living or to relieve the public of some of its burden of taxation, was powerfully presented.

Mr. King's reference to the determination of the Liberal Party, if it is returned to office, to proceed with the development of the Canadian Navy, as provided for by the measure placed on the Statutes by Parliament in 1910, struck a popular chord—a clean-cut announcement of policy which afforded a striking contrast with the admission in Parliament of the Hon. C. C. Ballantyne, Minister of the Naval Service, that the present Government had no naval policy at all and would not have one until after the next Imperial Conference.

Our morning contemporary which criticizes Mr. King's remarks on the navy question on the ground of vagueness, evidently did not take the trouble to ascertain what he said on this subject—a rather frequent failing in that quarter. Our contemporary itself has advocated many different naval policies during the last seven or eight years, but our impression is that its latest disposition has been to favor the development of a Canadian Navy, and during the time in which it may hold that view it should be, in this respect, in hearty accord with Mr. King.

The Liberal Leader's policy on the tariff is a substantial reduction of the duties on the necessities of life, the things which go to make the food, clothing and shelter of the Canadian people; the placing of articles essential to production on the free list, and material reductions in the duties on implements of agriculture, mining, lumbering and fishing. He frankly believes in a tariff, but declares it should be a tariff for consumers and producers rather than for profiteers and special privilege.

The speech of Ernest Lapointe, K. C., the brilliant member for Quebec East in the House of Commons, was a revelation of the grace and eloquence which so conspicuously marks the public men from the ancient Province. The style and matter of his deliverance were strongly reminiscent of the great departed chieftain to whom he paid a tribute of rare eloquence. A plain businesslike speech from Mr. Duff mainly critical of the Government's handling of the country's fisheries—which will strike a resounding chord in British Columbia, whose fishing industry has suffered considerably from the same source—completed the singularly able contribution of our visitors to the evening's programme, which was happily opened by the address of welcome by Premier Oliver.

HARDING IS CANDID.

Senator Harding has told a representative of The London Morning Post that he has no hostile feelings towards Great Britain. On the contrary he rather admires the manner in which she has managed her affairs, the ability she has displayed to tack on more power, prestige and importance from time to time. He sees a good example for the United States to follow and believes quite naturally that the commercial rivalry which exists between the two nations will be attended occasionally by a little irritation. Nevertheless he recognizes the absurdity of any suggestion that an economic race between friendly rivals must, of necessity, threaten harmony of intercourse.

He confesses that the United States has been foolish to "farm" her carrying trade and its profits to other nations. He is just a little inconsistent, however, when he expresses the opinion that British should practice a policy of "hands off" South American trade on the ground that the area in question is under American and not British influence.

Senator Harding surely is not serious when he attempts to obtrude a species of Monroe Doctrine into the commercial field. He might just as well suggest a policy of purely geographical limitations and tell Great Britain that as Canada adjoins the United States she must be regarded as under American commercial influence. Incidentally, it might be pertinent to ask the Senator whether he has forgotten that British ships established a commercial connection with South America long before his own country entered the field.

THE HARBOR BRIDGE.

Unless any unforeseen development takes place in the interval it should be possible for the mayor to announce a policy of quick action on the construction of Johnson Street Bridge as soon as the City Engineer returns from the East. According to Mr. Preston's wire from Montreal no obstacles were presented by the Canadian Pacific Railway Company's officials, and his advice to the Mayor indicate that the sub-structure plans are now approved by the company. His visit to Chicago, presumably, concerns itself with details in connection with the steel parts of the structure, and in no way involves further controversy or delay. If this is the case it is to be supposed that the City Council will recognize the necessity to get the undertaking under way at the earliest possible moment in order that the preliminary stages of the work may be made the agency for providing employment for those who are in need of it before the Winter season is too far advanced.

VILLARD'S COMMITTEE.

The British Foreign Office is living up to its traditions and once more rises to its full dignity with the public intimation that Osborn Garrison Villard's New York Nation Commission, to investigate reports of atrocities in Ireland, will not be recognized by the British Government.

Of course, it will not. Nobody ever supposed it would be. Any number of individuals may visit Ireland and inform themselves upon conditions as they exist today. It might be well to encourage that sort of thing. For instance, the individual American with either prejudiced or unprejudiced mind very probably would be a good deal wiser were he to see for himself some of the difficulties with which the Government is required to deal. But when it comes to outside assistance and advice John Bull is not taking any.

The Liberal press characterizes Villard's plan as "unwarranted, misguided meddling." The Daily News even fears that it may disturb English-American public opinion to the extent of setting it by the ears. The Westminster Gazette, however, sees the humor in the situation and relies upon abundant American good sense to deny support to the crazy scheme. But no mention is made of William Randolph Hearst as the "joker."

PRINCE RUPERT'S TROUBLES.

To discover how it was possible for the conveyance of four Prince Rupert offenders against the British Columbia Prohibition Act from their jail quarters to the Southbound steamer to have synchronized with a demonstration by an apparently sympathetic section of the populace, unless by collusion of police and prisoners, is a task that the Police Commissioners of the northern city have set themselves. According to the report of the first session, printed in The Prince Rupert Daily News, one police sergeant is perfectly frank in his admission that he refused one of his charges permission to leave the city lock-up in the evening because he had abused his freedom in the afternoon by returning to captivity "half shot." In other words it looks as if the Police Commissioners will have to make up their minds that the extraordinary demonstration was arranged by the prisoners themselves who had every opportunity to see their friends on the day of their departure and to advise them of the manner of their conveyance to the wharf. The seat of the trouble, however, seems to be the peculiar "wetness" of the town, and until conditions are remedied the rest of the Province will remember that the average citizen of Prince Rupert is law-abiding; it will not charge up this particular incident against the first-class reputation of the community.

NOTE AND COMMENT

Archbishop Mannix finds the Lord Mayor of Cork a miracle. It will be a miracle if he dies. But who is feeding him?

It has been said by those in authority that a camel is able to go nine days without liquid and sustain no ill effects; but it took fifty policemen to persuade one of the species to leave a soft drink booth at the Indiana State Fair the other day until it had made away with ten gallons of pink lemonade.

In a recent address in the capacity of a representative of the Moderation League, Mr. C. T. Cross, informed his audience that a Victoria agent had told him that \$5,000,000 had been sent out of this city for liquor since the war. But when it comes to a question of twenty thousand dollars for the establishment of a municipal golf links—a project of tremendous benefit to the community as a whole—neither votes nor cold cash will put it over.

Fifty-five delegates of the South African and Nationalist parties have been in session at a conference for several days with the object of effecting a radical reunion among the Boers; but the Boers of the South African Party resolutely refused a re-union which would not include the British element. Could there be a more striking tribute to British influence, British justice and British institutions than this?

The President of the League of Nations has appealed to Poland urging her to re-establish relations with Lithuania in her own interest. If the League is desirous of winning the respect of its membership it should take the new republic in hand just as a maternal parent would take a refractory child. Poland has been both sulky and defiant in the face of the covenant to which she owes adherence.

WHY DOES A BALL BOUNCE?

(Copyright, 1920, By The Wheeler Syndicate, Inc.)

Some of the latest developments of motion picture improvements—whenever the camera is directed at such swiftly moving objects as a bullet or a projectile being fired from the muzzle of a big gun—have enabled us to see what takes place when a ball strikes the ground and bounces upward. The ball which is perfectly spherical up to the moment when it strikes the floor, becomes flattened for the fraction of a second. As much of it comes in contact with the obstruction loses its rounded surface, but, because it has possessed the quality known as elasticity, the ability to return to its former shape, it almost instantly becomes rounded again and literally forces itself upward. In other words, it "bounces."

Practically all solid materials, even stones, possess this quality in a greater or lesser degree, but rubber and cork are extremely elastic—which is the reason that these substances are so widely used in the manufacture of balls of all kinds. Baseballs, made with a cork center tightly wound with yarn and covered with horse-hide, are not nearly so elastic as a rubber ball, and some of these, hit by men like "Babe Ruth," are permanently flattened; while a rubber ball would have retained its spherical shape even after being driven a much further distance.

COMMITTS SUICIDE**WITH SHOTGUN**

Body of William Brown, Returned Soldier, Found—Head Blown Off

Vancouver, Sept. 28.—The body of William Brown, a returned soldier, whose relatives live in Ontario and who disappeared from the Nimpkish Logging Company's camp, up the coast last Tuesday, has been found in the fish hatchery of the B. C. Packers' plant.

He had shot himself through the head with a double-barrelled gun. Constable Matthews, of Alert Bay, was notified, Coroner Halliday held an inquest and found the man had committed suicide while insane, and the constable buried the body near where it was found.

NEW APPOINTMENTS MADE AT UNIVERSITY

Vancouver, Sept. 28.—Dr. R. H. Mullin, professor of Bacteriology, was appointed professor of Public Health and head of the department at a meeting of the Board of Governors of the University of British Columbia held last night. This department is an innovation and has been made possible by the grant of \$5,000 a year from the Red Cross Society.

Other appointments were made as follows: Miss Ethel I. Johns, R.N., assistant professor of nursing; S. E. Buckett, lecturer in economics; W. H. Powell, instructor in civil engineering; P. E. Buck, assistant professor in agriculture, and H. M. King, associate professor of animal husbandry.

NEW VOTERS' LIST OUT AT WINNIPEG

Winnipeg, Sept. 28.—Winnipeg's new voters' list made public to-day contains a total of 85,606 names. Returned men and women, and wives and husbands of voters are included for the first time, and will vote under the newly inaugurated three-ward system and proportional representation. Women voters total 31,922 and male 54,684.

Returned soldiers total 2,708, and women returned 38.

PACKERS' PLAN WOULD MEAN THE VIOLATION OF ANTI-TRUST LAWS

Washington, Sept. 28.—Objections to the entire plan suggested by the "Big Five" Chicago meat packers for disposition of their stock yard interests were filed by the Department of Justice to-day, in the District of Columbia Supreme Court.

To sanction the proposal of the packers to dispose of their stockyards interests, a holding company to be formed by F. H. Prince & Company, of Boston, would mean sanctioning of a violation of the Sherman and other anti-trust laws, Attorney-General Palmer declared in a formal statement.

YOUNGER MENNONITES WILL GO TO QUEBEC

Quebec, Sept. 28.—The younger Mennonites of Manitoba who were at first unwilling to decide to leave their Province with older members of their sect on account of the educational restrictions, have now informed the Quebec Government that a delegation will be sent to the Abitibi region with a view to selecting land to migrate to.

PREMIER ON TOUR

Mr. Oliver and Minister of Lands Will Hold Meetings in the Interior

Premier Oliver and the Hon. T. D. Pattullo, Minister of Lands, will leave the city to-night for the interior, where a series of public meetings has been arranged.

Commencing at Kamloops on Friday the two ministers will proceed to Summerland, Kelowna, Revelstoke and Kaslo and deliver addresses at each point.

According to present arrangements the Premier expects to return to the capital on or about October 14.

The greatest assembly of carpets gathered at Weiler Bros' in recent years is presented this month. From the foremost carpet looms of Canada and Europe the most beautiful creations have been selected—brought here so that you may enjoy the utmost scope in choosing a floor covering for your home.

**Victoria Parquette Carpets**

An imported carpet of rare beauty and distinction. It is devoid of pattern and is presented in shades of old rose or wisteria. This carpet is seamless, 12 feet wide, and carpets can be made from the piece in any shape or size. The pile is extra heavy and luxurious, and it is positively all wool—back and front. Price per square yard

HOROSCOPE

Tuesday, September 28, 1920. (Copyright, 1920, by The McClure Newspaper Syndicate.)

DURING the early morning hours of this day Saturn is at conjunction with Mars and Mercury are all in Neptune. Mars and Mercury are all in Neptune. Mars and Mercury are all in Neptune.

Real estate will be subject to extreme fluctuations in certain cities. Rooms will be followed by depression, which will not be lasting, however, for there will constantly grow a sentiment in favor of home ownership.

Some sort of anxiety affecting farmers and agriculturists may be apparent this Autumn, but there is a good promise of large returns on produce. While prices of many staples may drop, food will continue to be costly for some time and restaurants will never again be able to offer the old-time schedule.

This should be a fortunate time for starting on ocean trips and an important foreign mission seems to be foreshadowed.

All that is constructive, whether it be in the line of mere organization or whether it be material building, is now subject to the most stimulating influences.

Again colonization and co-operation will come much into discussion and consideration.

Mercury gives brilliant promise to writers, especially to dramatists, who will find new opportunities for the presentation of their plays, since all the signs presage a remarkable growth of interest in the theatre and theatrical affairs.

Messages of good luck may be expected while the stars are poised as they are to-day.

California is subjected to a sway of the stars making for sensational events. Not only in politics, but in commercial matters developments of great moment are prognosticated.

While Mercury is read as forecasting success and initiative for writers, there is a friendly star that is believed to encourage oratory. Many women will speak, but few will convince, however, according to the forecast.

Persons whose birthdate it is have the forecast of an active and successful year in which new avenues for money-making will open. Children born on this day are likely to be endowed with alert minds and strong bodies. They may be endowed with unusual beauty.

**IRISH REPRISALS STRONGLY CONDEMNED BY BRITISH PRESS**

(Continued from page 1.)

revolver firing. The military dispersed the rioters by bayonet charges. There were seventeen arrests for violation of the curfew law.

Still Lingers. London, Sept. 28.—Terence Macswiney, Lord Mayor of Cork, passed a better night last night, and was in consequence a little more refreshed this morning, said a bulletin issued by the Irish Self-Determination League. He was very weak and exhausted, however, and in some pain, the bulletin declared. This is the sixth day of the Lord Mayor's hunger strike.

In his report to the Home Office, the physician at Brixton prison said: "He is slightly thinner, but otherwise there is no marked change from yesterday. The prisoner is unquestionably growing weaker daily."

GOVERNMENT STREET RE-PAVING PROPOSAL

Alderman Todd Would Make
Departure From Local
Improvement Policy

The re-paving of Government Street, from Humboldt Street to Cormorant Street, will be recommended by Alderman Todd to the City Council to be done as a general improvement work. The alderman explained a report, which had been filed, in which City Engineer Preston had estimated the cost of a permanent paving on Government Street, from Humboldt to Discovery Street at \$60,000 at the meeting of the Council yesterday afternoon. Quoting from figures supplied by the engineering department and City Comptroller Raymur, Alderman Todd said that in repaving Government Street from Discovery Street to Belleville Street the principal accumulated over a term of fifteen years would amount to \$46,100, with interest at 6 per cent. of \$22,590, a total of \$68,690. The city's share, 50 per cent. would be about \$34,345, or approximately \$44,400 over a fifteen-year period. "To repay the debt would require \$88,890," said Ald. Todd. "It may thus be seen that the local improvement plan in this case means much greater expenditure. The money we actually propose spending amounts to \$68,690 to \$74,000, while what we must pay back is \$102,090." After hearing the report, a decision was reached to delay action until the next session.

"Whoever got any accommodation of money without having to pay something," remarked Alderman Sargent, who pointed out that the Councils of nine and ten years ago had decided on a general local improvement plan. It was too late to make the change, and if it were not, how could they begin a gratuitous plan on Government Street? The aldermen asked what was the position of the large banking interests, who were willing to pay their share of repaving the street. There were sixty-six Chinese premises facing on the street, between the Causeway and Discovery Street. He thought it would be impossible to apply the principle to Government Street, which Alderman Todd had enunciated. He pointed out that it had been the policy of the Council to cut down on current street improvement appropriations, and he cited the reduction of the original streets' estimate from \$47,000 to \$40,000 last Spring. If the Todd policy was accepted, he said, all the money would be spent on one street.

Replying Alderman Todd favored the application of the principle gradually, as the streets now improved were worn out, and he recommended a beginning on Government Street. Only two streets were in a parallel case, Yates and Johnson Streets (part), and special legislation could be created to deal with their case, he argued. He thought it would be good policy to give larger use to the Garbally Road asphalt plant, and carry out a moderate policy of repaving annually.

Mayor Porter agreed that theoretically, the idea of street paving out of revenue was good, but it would not work out in practice.

W. H. MORSE, of Seattle, Wash., who says he can now turn out as much work as he could thirty years ago, in spite of his age. Gives Tanlac credit for his splendid health.

"I am in my eighty-fifth year, but since taking Tanlac I am as hale and hearty as I ever was and can do as much work as I could thirty years ago," declared W. H. Morse, of 52 Blaine St., Seattle, Wash. Although in his eighty-fifth year, Mr. Morse is still daily to be found engaged in hard work down at the Ames Shipyard and is remarkably well preserved for his years.

"Last Spring I had an attack of the flu that left me in a very badly run-down condition and so weak that I could hardly get around. For a long while I had a very bad cold that I couldn't shake off and my bronchial tubes were so choked up that I was coughing all the time. I had no appetite and in fact ate so little that I was steadily losing weight. I couldn't sleep at nights and became very much worried about my condition, because I couldn't find anything to straighten me up and restore my lost strength.

"I saw by the papers what fine work Tanlac was doing for other folks, so I got some for myself. It did me good right from the start, for in a very short while my cough left me, and I was eating fine and sure did enjoy every mouthful. I slept better at nights and was soon feeling much better in every way. I have gained seven pounds in weight and am so much stronger that I can turn out about as much work as most any other man in spite of my years. Tanlac certainly must be a great medicine to put me on my feet like it has, and I'm glad of the chance to tell everybody about it."

Tanlac is sold in Victoria by D. E. Campbell, corner Fort and Douglas, and Lang's Drug Store, Esquimalt Road.

Social PERSONA

At the First Presbyterian Manse last evening at 7.30 the Rev. J. Gibson Inker united in marriage Stanley William Oliver, of Chemainus, B. C., and Miss Laura Ethel Hughes, daughter of Mr. and Mrs. Harry Hughes, of Victoria. They were attended only by Mr. B. C. Burton and W. C. Kennedy. After the ceremony, Mr. and Mrs. Gidley left on a honeymoon trip to the Sound cities and on their return will make their home at Chemainus.

It is understood that P. L. Hutchinson, general manager of the C. P. R. hotel system, is retiring at the end of the current year. He has purchased 250 acres of farmland near Chemainus at the mouth of the Chemainus River, and plans to take up farming next year. The property, which is known as "Swallowfield," was formerly the property of Capt. E. Gore-Langton.

Liberals of both sexes attended the reception held in the Empress Hotel yesterday afternoon in honor of Hon. W. L. Mackenzie King. Receiving with the Liberal leader were Ernest Lapointe, M. P.; Fm. Duff, M. P.; W. C. Kennedy, M. P.; Hon. John Hart, H. C. Hall, M. P., and W. M. Level, president of the Victoria Liberal Association.

Mr. and Mrs. Robertson, Vancouver; Mrs. M. A. Wyde and Miss V. Wyde, of Shawinigan Lake, Mr. and Mrs. H. E. Tompkins, Seattle, Lewis G. Whittier, Seattle, Captain A. Pearce, Vancouver, and Mr. and Mrs. R. L. Booth, Quebec, are among the recent arrivals registered at the Brentwood Hotel.

Mrs. W. F. Brougham and Miss Daphne Brougham, who came over from Vancouver to attend Saturday's performance of "Tosca," have returned to the mainland city. During their brief stay they were the guests of Major and Mrs. Selden Humphreys, Beach Drive.

Mrs. W. W. MacGregor and sons, Donald and Donald, also Mrs. E. C. Matthews and daughter, Lillian, all of Dayland, Alberta, have arrived here to remain for two or three months, and have taken apartments on Menzies Street.

Mrs. J. W. de B. Farris, wife of the Attorney-General, is spending a few days in Vancouver. Hon. Mr. Farris will join her in the mainland city this evening, and they will return to Victoria on Thursday morning.

Miss Dorothy Dorrell, one of Victoria's most popular young singers, is shortly leaving for Moose Jaw on an extended visit to her sister. She will make her farewell appearance at Miss Kate McGregors' recital on Monday evening next.

Mr. and Mrs. C. S. Sweeney, who have been visiting Mrs. Sweeney's mother, Mrs. Pooley, at Esquimalt, left yesterday for Vancouver, and will remain there a few days before leaving for their home at Penikese.

Mrs. W. H. Wood, who has been spending the Summer in Victoria, has returned to Vancouver and taken up residence with her son, Professor F. G. C. Wood, of the University faculty.

Mrs. T. H. Harris and Miss A. Harris, arrived in the city yesterday, and are guests at the Strathcona Hotel.

Mr. and Mrs. William Logan, Jr., of Vancouver have been visiting here for the week-end as the guests of Capt. and Mrs. Wm. Logan, Cook Street.

Mrs. Carter and her daughter, Miss Welma Carter, of Victoria, are visiting Mrs. Edward Buckfield, Thirteenth Avenue West, Vancouver.

Mrs. N. Clark and Miss M. I. Clark, and M. A. Wyde, of Shawinigan Lake, are registered at the Strathcona Hotel.

Mrs. James Shaw and Miss Shaw, of St. John, N.B., and S. McKenzie, of Toronto, are staying at the Strathcona Hotel.

Herbert H. Beck, of Victoria, is visiting his son-in-law and daughter, Mr. and Mrs. Percy M. Liddell, Point Grey Road.

Miss D. Sherry and Murray Sallet, of New York City, are registered at the Strathcona Hotel.

Robert Jardine, of New Westminster, arrived at the Empress Hotel yesterday.

Mr. and Mrs. G. E. Saunders, of Winnipeg, have arrived at the Empress Hotel.

Mrs. F. P. Shearwood, of Montreal, is registered at the Empress Hotel.

Lieut. E. McDermott, U.S., M.C., was in the city yesterday.

TO-DAY'S JEWELS

Tuesday, September 28.
If you wear a brilliant color make it conspicuous, coral will prove a talisman to-day.
In Italy where it is much used as an amulet, only pieces freshly gathered from the sea are believed to be potent, and the legends of other countries are more liberal, and any unbroken bit of coral is said to give its wearer wisdom, and permit him to travel in safety and to slay the flow of blood from a wound.
The carnelian is the natal stone of those who were born on some anniversary of this day. It is a particularly lucky gem for singers, since it is believed to have a stimulating effect on the human voice.
A curious interpretation is that wearing it will give a bashful admirer the courage to speak.
Black is a lucky color to-day, according to Oriental superstition. For married women it is a symbol of constant love, but for young girls it signifies fickleness and coquetry.
The white rose is the significant flower to-day.

POPULAR TEA DANCES TO BEGIN SATURDAY

Empress Hotel Management Announces Resumption of Enjoyable Function

Devotees of dancing among the members of the younger social set will undoubtedly welcome the announcement by the management of the Empress Hotel that the popular "the dancants" will re-commence at the hotel on Saturday next, at 4 o'clock.

These informal functions have for some years past been among the most popular social affairs of the winter season, the beautiful ballroom with its windows affording a charming vista of the gardens with their wealth of Autumn blooms, and forming an effective setting for the gay little gatherings. The secret of the popularity of the "dancants" at the Empress Hotel lies largely in its appeal to young and old alike for the excellent music furnished by Professor Lou Turner's orchestra offers equal enjoyment to dancers and to the spectators who content themselves with the social amenities over the tea-cups. Professor Turner has prepared an especially attractive programme of dance music for the opening dance on Saturday, and the hotel management anticipates a big attendance.

LADY DOUGLAS CHAPTER PLANS BRIDGE-TEA FOR MONDAY NEXT

A bridge-tea is to be held under the auspices of Lady Douglas Chapter, I. O. D. E., on Monday afternoon, October 4, at the residence of Mrs. A. Forbes Proctor, who has kindly placed the charming home at the corner of Fort Bay Road and Quamichan at the disposal of the Chapter for the occasion.

The tea is arranged for bridge and five hundred, and reservations may be made by telephoning Mrs. A. N. Mount, 5364, or Mrs. H. A. White, 5312. Play will commence at 2.45, and tea will be served from four till six o'clock. The proceeds of the affair will be devoted to the Chapter's share of the War Memorial Fund of the Order.

WHAT'S IN A NAME?

Facts About Your Name: Its History; Its Meaning; Whence It Was Derived; Its Significance; Your Lucky Day and Lucky Jewel.

By Mildred Marshall.
(Copyright, 1920, by The Wheeler Syndicate, Inc.)

ANGELA.

Angel-like is the translation of Angela, from the Greek angelos, meaning messenger, which the Romans interpreted as "angel." Angela first became a proper name in the Byzantine Empire. It is believed to have been an epithet since it comes to light in Konstantinos Angelos, a young man of noble family whose beauty caused him to be the choice of the Princess Theodora Komnena in 1109. Because of the beauty of the family, Angelos became a household name in Italy.

The mid-twentieth century of the Venetians brought it to Greece and a monastic saint who preached at Palermo and was afterwards murdered by a wicked Count whose evil deeds he had rebuked, was one of the first to bear the name. The saint's feast day is August 15, a saint of their order and the name, in both the masculine and feminine forms, caught the fancy of Italy.

It became popular in other nations, due perhaps to its inseparable association with beauty; and also to the fashion of complimenting women as angels. The derivative Angelica is noted in romance as the faithful friend of the knight, Roland, who lost his heart and senses, but she was a gratuitous invention of Boiardo and Ariosto, for Spanish legends and earlier Italian ones make him the faithful husband of Alda. However, Angelica obtained that character for beauty which has made the name popular through the centuries. It has been a particular favorite with authors through all ages of literature, particularly in mid-Victorian fiction, where its heritage of fragile, virtuous beauty fitted it exceptionally for the name of a heroine. Angela, from time immemorial, has been applied to the fluffy, youthful, unsophisticated type with curly hair and wide innocent blue eyes.

The French call her Angélique and Angélique, England has evolved the derivative, Angelica. Angélique, Angélique and Angélique are the Italian forms; the Teutonic versions are Engel and Engelchen. Angela, the Polish and Angla and Angella have been evolved in Bohemia.

It is fitting that the pure beauty of Angela should have the pearl as her talismanic jewel. It insures her charm and her beauty, and she should wear a pearl, which she will find new faithful friends. Monday is her lucky day, and she should wear a pearl, and her lucky number.

Will Entertain Craigdarroch Boys.—The Ladies' Auxiliary of the St. Andrews and Caledonian Society in conjunction with the parent organization and the Knights of the Thistle will entertain the patients at Craigdarroch Hospital on Thursday evening next. A good programme will be arranged to which songs will be contributed by Mrs. McNair, Mrs. Durham, Messrs. Dobble, Wallace, Tom Obis and Torrance. Members of the organizations have been requested to meet at Craigdarroch Road at 7.45.

NOTED CHINESE REFORMER TO VISIT

Dr. F. C. Lees Desires Funds For National Chinese Asylum

According to advices received from Tenny Hsieh, Chinese Labor Commissioner for New York State, Dr. F. C. Lees, former Canton Health Commissioner plans to visit Victoria to make arrangements with the leading Chinese of Victoria in connection with the solicitation of funds for the new Canton Hospital and Asylum. Dr. Lees is one of the most prominent members of the leading group in South China, where his work for the reform of health conditions there has occasioned world wide commendation. Of some half dozen professional medical reformers, working among the four millions in China, Dr. Lees

has established a name for patriotic endeavor that is widely recognized in this land.

During his drive for funds from the Chinese in America and in Canada, Dr. Lees gathered over \$50,000 from the city of San Francisco alone, the funds being devoted to the new Chinese hospital at Canton, and to the National Health Asylum, which latter is the only institution of its kind to serve the teeming millions of the Chinese race.

1—The Presbytery asks Forward Movement Finance Committee to make as thorough a collection as possible of the instalments due to the Forward Movement Thank Offering in October.

2—The Presbytery accepts its allocation for the budget of 1921 as \$12,400.

3—The General Assembly asks that a General Interest committee be appointed in each congregation for the purpose of furthering the interests of the budget, and the Presbytery recommends that this be held at the end of every member canvass be made not later than the middle of December and an effort made to get every member and adherent to use the duplex envelope for systematic giving.

To Honor Pioneer Members.—Nearly twenty members of the Victoria since 1885 are to be the guests of honor at a silver tea to be held at the home of Mrs. William Grant at Point Ellice on Thursday afternoon at 3 o'clock. The programme will consist mainly of reminiscences of W. C. T. U. work and songs by these pioneer workers in a great movement.

Esquimalt Chapter Dances.—Through a misunderstanding, the date of the dance to be held at the Alexandra Club under the auspices of the Esquimalt Chapter, I. O. D. E., was announced in yesterday's issue as Tuesday, October 6, instead of Wednesday, October 6. Tickets for Wednesday's dance, the proceeds of which will be devoted to the Order's War Memorial Fund, may be obtained at Hibben's store or at members of the Esquimalt Chapter.

TOYOPHASIA MEETS HEAVY WEATHER

N. Y. K. Liner Here To-day
After Rough Passage
From Orient

The Nippon Yusen Kaisha liner Toyohashi Maru docked at the Outer Wharf at 7.30 this morning after a good run from Shanghai, Hongkong and Yokohama, with a fair cargo of general merchandise for the Pacific coast. Captain T. Terada commands the big freighter, and reported a good run with, however, some very heavy weather while off this coast. Heavy rains and winds delayed the latter end of the passage, and made the approach to the coast somewhat difficult by reason of fog.

Captain Terada passed through here in the Fall of 1917 with the remainder of his crew, survivors of a Nippon Yusen freighter that had been torpedoed and sunk off the New York coast by a German submarine. The commander and his men had a difficult time in escaping, but were finally picked up and brought to port after what looked like certain death for all concerned. The crew of the German submarine stood by and feigned victims as they got away in boats, and ended up by shelling the boats. Some loss of life was occasioned.

Since that time Captain Terada has been on the Toyohashi, plying from the Orient to Seattle, and touching here as the only Canadian port of call. Only six passengers were carried on the incoming run, one for here, and five for Seattle, all Japanese.

Of a fair cargo of general merchandise that was carried several thousand tons are for Seattle, Tacoma and Sound ports, and some 250 tons for Victoria. In the Victoria shipments is the usual allotment of rice, silks and chinaware.

The Toyohashi goes first to Seattle and then on to Tacoma, loading for the outgoing voyage, sailing out-bound on October 12.

THE WHISTLING GIRL.

She has a taste for whistling.
A taste that's not permissible.
But still I don't object to it.
The pucker is so kissable.
—Carolina Tar Baby.

LAST ADDITION IS LUXURIOUS FREIGHTER

Blue Funnel Liner Achilles
Has Telemotor Steering
and Other Modern Gear

The officers on board the big Blue Funnel liner Achilles, which docked here yesterday from the Orient, brought word of the new Blue Funnel liner Achilles, which they saw in Singapore, when the two vessels were alongside. The new freighter is the last word in luxurious appointments and modern conveniences, which for a freighter transform the situation into something more nearly resembling the comfort of passenger travel. The Achilles is driven by geared turbines, and is expected to do fourteen knots without question or hindrance at all times. Telemotor steering gear and gyroscopic compasses are some of the latest devices in shipping that have been employed in the structure and fitting of the new vessel. The trial run of the Achilles is to be made soon, after which the vessel will be sent back to the builders for re-adjustments that may be necessary in the innovations utilized. The steering gear is said to be extremely sensitive, and will require some adjusting before perfection is reached. The Achilles is expected on the trans-Pacific service some time next year.

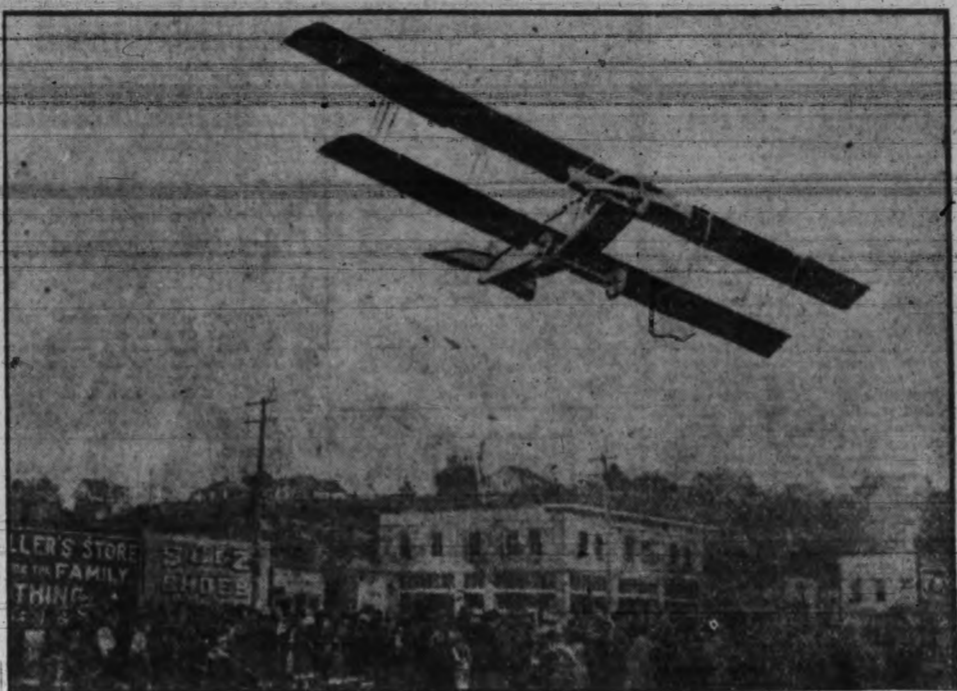

MARINE NOTES

C. P. Sargent and Mr. Sanderson, of the White Star line were in the city yesterday arranging with their local agents, Mr. Sanderson is the Liverpool agent of the company, and is making a tour of the American continent meeting transportation men. While here the party met W. R. Dale, and several shipping men of this port.

The Osaka Shosen Kaisha liner Hawaii Maru is due here to-day and will pass out on the westbound voyage to the Orient shortly after five o'clock. The freighter loaded at Tacoma, passed to Seattle and came from Sound ports to-day. Sailing light, the Hawaii Maru carries out-bound a number of Japanese passengers from American points.

The steel barquentine Alta put out

AIR CRAFT GC-Abu, WRECKED OFF NALAU ISLAND

Pathfinder II, which is here seen rising from streets of Port Angeles while piloted by Lt. Jack Clemence for the Aerial League, and which adapted as a seaplane has been wrecked en route from Alert Bay to Prince Rupert.

This afternoon for Durbar with a large cargo of lumber for that port. The Alta has had a varied career on this coast, and last time was unlucky in springing a costly leak, necessitating considerable repairs.

The power schooner Ruby, in charter to the Hudson's Bay Company, is expected to clear to-day from the government wharf at Ogden Point. The Ruby carried some two tons of skins from Hornet and Bailey Island to this port for discharge here. The shipment included bear, fox, with some seal. The Ruby will make Seattle and is expected to lie up there for the winter season.

The B.C. Coast service will run

three boats out to-night, including the regular vessel Princess Victoria. The Maquina which made port here today, will sail as a special for Vancouver, while the Princess Mary will leave on the old run of the Charmer. She is replacing the Charmer while the latter is undergoing a slight overhaul at the Victoria Machinery Depot.

Advices received last night confirm the report that the Iris is on the way up from San Francisco and should reach here by the latter part of the week. The Grainer and Trader are usually carrying cement from the Tod Inlet plant to the Outer Docks for the cargo of the ship. Of some four vessels of that name in

MAY LAUNCH SECOND STEEL FREIGHTER

TO-MORROW AT THREE
Harbor Marine Co. Plans to
Send Canadian Traveler
Down the Ways

The second \$400-ton freighter built by the Harbor Marine Company for the Canadian Merchant Marine programme is due to take the water tomorrow when the Canadian Traveller will be sent down the ways at 3 p. m. with the reservation that if the tide and wind be not right, the launching will be withheld for more favorable conditions.

The sponsor for the new vessel has not yet been officially announced, but every indication points to the fact that Mrs. J. C. McIntosh, wife of the Federal member for Nanaimo, who did so much in assisting Dr. Toimie to secure the local ship-building programme, will act as sponsor and christen the Canadian Traveller before she leaves the ways.

The Canadian Traveller, first ship of the Harbor Marine programme, is still in the hands of the Victoria Machinery Depot, where her boilers and deck fitting are being installed. Some delay in obtaining electro-motive equipment from England is being experienced, it is stated, and that may necessitate the running of the speed trials of the Winner with a cargo on board, the freighter being due to all outward bound for the Antipodes on October 15.

The Canadian Traveller will take her place alongside the M. E. D. wharf as soon as the Winner gets away to go on herth.

LAUNCH UNMANNED POINTS TO TRAGEDY

Derelict, With Engine Running, Causes Anxiety For
J. H. Blair, Chemainus

Vancouver, Sept. 28.—A fisherman's gas boat with the engine running for several hours while the boat was unoccupied—ran ashore near Butchart Point, an up coast district. Investigation led to the discovery that Junior Henry Blair, of Chemainus, who had been "trailing" for salmon, had apparently fallen overboard, but the body has not yet been found. Constable Matthews, of Alert Bay, advised the local provincial police office of the supposed tragedy, but has had no further details.

Secured by the West India Trade
Agreement and Canadian Ships.

By willingness and ability to pro-
vide ships, Canada this year has
drawn the West Indies closer to
herself and to the Empire. She
can make preferential trade agree-
ments with other peoples under
the British Flag, without arousing
international complications.

Canada possesses men with brains
who will make these preferential
trade agreements. But to make
good these trade agreements we
must have Canadian Ships.

The Navy League of Canada

What Simcoe Would Now Find At Kingston

WHEN Kingston became the capital of Upper Canada in July, 1792, and Governor Graves Simcoe, with his counsellors, formulated their policies in a little wooden building at 133 Queen Street, who knows what they may have thought about the length of time it would survive them?

How do you feel about your own home—so valued by you now?

Simcoe's little council house is a monument to the gospel of long preservation through surface protection. It still stands, the first parliament building of Canada, braving the elements of more than a century. Its care was habitual. Unprotected by regular coat-

ings of paint, it could not have lasted one-quarter the time.

The whole country is dotted with similar examples. Your home can look forward to belonging to the same illustrious company through the same means—surface protection.

Think of it! Every attack of decay and rust must necessarily begin at the surface. These insidious enemies are completely checkmated by surface protection. With frequent protective coatings of the surface, the property is invulnerable.

Look over your property—all of it and do it now. Save it—Save the surface and you save all.

THIS ANNOUNCEMENT is issued by the Canadian Save the Surface Campaign Committee, for the purpose of educating the public in the Preservative and Protective value of Paint, Varnish and Allied Products for the Conservation of Property, and has received the approval of the Canadian Trade Commission in the following words: "The realization of the above objects will lead to employment during the Reconstruction Period and bears out entire approval."

THE CANADIAN TRADE COMMISSION
Neither the Master nor the undersigned will be responsible for any debts contracted by the crew of this vessel.

Released on Bail.—Magistrate Jay this morning directed that Arthur Strom should be allowed big liberty on \$200 bail until to-morrow morning. When the charge of assault on Theodore Rosland will be again on the roster. The woman, Christina Irvine, who was stated to be able to give important evidence, was not in court and a subpoena has been issued for her appearance. The defence is that the assault was committed in self defence.

Must Pay for Wire and Court Costs.—Fred Pica was ordered by Judge Lippman to-day to pay Hawkins & Hayward for the 725 feet of electrical wiring that he got them to run from the Normal School to a place nearby, where he had a motor. The wiring was run out when the Normal School was built and the electricians have been unable to induce Mr. Pica to pay for the work, although it was done five or six years ago. Thomas Miller, acting for Hawkins & Hayward, brought out. Besides paying for the wire, the Judge ordered Mr. Pica to pay all the court and lawyers' expenses of the trial. Cornelius O'Halloran, for Mr. Pica, resisted the claim.

Their replacement is an immediate duty. It is a simple operation, performed quickly, at slight expense by a reliable service station.

BRIEF LOCALS

Had No Tail Light.—In the city police court this morning, J. E. Andrews was fined \$1 for having no tail light on his automobile.

Hindoo Pays Fine.—Daxoo, a Hindoo, paid the customary \$1 when he was admitted in the city police court, for having been drunk on Cathedral Avenue.

Called at Building.—Hon. W. L. Mackenzie King, accompanied by Mr. Lapointe and Mr. Duff, called upon Premier Oliver at the Parliament Buildings this morning and made a tour of the various departments housed in the legislative pile.

New Chairman of Fire Wardens.—Alderman Fullerton has been appointed Chairman of the Fire Wardens in place of Alderman Cameron, resigned from the Council. Mr. Fullerton has been Chairman of the committee named for a number of terms.

Dominion Over Disease.—Dr. T. W. Butler will speak at the New Temple, 835 Douglas Street, on Wednesday evening at 8 o'clock on "Man's Dominion Over Disease." He will give treatment to anyone present or absent who may request it. The public is invited.

B.C. Electric Fares.—The City Council did not proceed yesterday at its meeting with the discussion regarding the B.C. Electric Railway Company, and its increased fare application. The Legislative Committee recommended delay with the matter at present, and the whole subject went forward one week.

Divorces Wife.—Benjamin H. Sturgeon, on the application of his attorney, Frank Higgins, K.C., to Mr. Justice Gregory today, was granted a divorce from his wife, Wilhelmina Sturgeon, because of her conduct with William F. Herd, of Vancouver, who must pay the costs of the action.

For Seaman's Institute.—The amount collected at the Home Products Fair on behalf of the Victoria Seaman's Institute was \$210.05. On behalf of the executive the port missionary wishes to thank Mr. Warren and Mr. McIntosh for their hearty support for their generosity. Mrs. Chas. Moore, Mrs. Sayer, Mrs. Kingham, Miss Sweet, Messrs R. G. Howell and Geo. Harvey for their assistance, and The Colonist and Times for their invaluable help.

Lantern Lecture.—Under the auspices of the Women's Missionary Society a lantern lecture will be given in St. Paul's Presbyterian Church on Wednesday evening, September 29, commencing at 7.30. The slides which are the property of the Mission Board have been sent out from Toronto for educational purposes. After Wednesday night they will be forwarded to one of the other Presbyteries of the Synod of British Columbia for dates already planned for. This lecture is open to the public.

Harvest Festival at Cathedral.—To-morrow, Michaelmas Day, will mark the beginning of the annual Harvest Thanksgiving Festival in Christ Church Cathedral. The first church service will be held at 11 o'clock, when special music will be rendered by the choir and a sermon will be preached by the Rev. E. J. Ward, B.A., a visiting clergyman from Vancouver. A service of Holy Communion is announced to-morrow morning at 8 a.m., and the festival services and music will be continued next Sunday.

Charge Was Dismissed.—J. Armstrong, a junk collector residing at Sidney, was charged this morning in the Sancho Police Court with having in his possession two sheaves of oats knowing them to have been stolen. Chief of Police Brogan stated there have been many complaints from farmers as to thieves raiding the stooked fields, and when he questioned the accused as to the origin of two wet sheaves he had in his wagon Armstrong had given explanations which had later been found untrue. As there was no evidence to prove theft or identity of the sheaves in question, Magistrate Jay dismissed the charge without hearing the rebuttal evidence that W. A. Brethour was prepared to submit on behalf of the accused.

GAS STRIKE OVER

Vancouver, Sept. 28.—The strike of the gas workers has come to an end. It is understood, the men at a meeting having decided to apply individually for reinstatement. A number of the old hands had already gone back to work.

SAYS CREEK WILL FLOOD BASEMENTS

Unless something is done to clear out that section of Bowker Creek lying in Saanich the creek will overflow during the winter rains, flooding nearby basements, City Health Officer Dr. Arthur G. Price informed the City Council yesterday afternoon.

In those sections of the creek lying in the city, Dr. Price stated in his report to the Mayor and aldermen, the water ran freely but vegetation was now choking up the portion in Saanich. Unless the creek was cleared up, the water, said Dr. Price, would back up at Shelbourne Street to a depth of two feet and above this point it would flood property and basements in nearby houses. This condition might be expected soon, the doctor warned.

Unless the property owners in this section cleared out the creek, Dr. Price advised the Council to take action against them under the Health Act, and the Council will notify the owners before proceeding in the courts.

JUDGE'S CASE UP TO-DAY

Attorney For Mr. Justice Martin Sees \$1,000 Foreclosure Brought By Miss Finlayson

Glebe White, of White & Martin, attorneys for Mr. Justice Martin of the Court of Appeal, to-day brought into court the foreclosure action of Miss Sarah Susette Finlayson against the Judge in connection with a series of five mortgages she holds on his home property.

Mr. White explained that there were two actions. One was started by the Judge on August 27 against Miss Finlayson, and the other, started three days later, was by Miss Finlayson against the Judge.

White-made application to stay the second action pending decision in the first.

At Jackson, K.C., acting for Miss Finlayson, said that there ought to be some way of consolidating the two actions.

Mr. Justice Gregory adjourned the matter so that Mr. White may cross-examine Mr. Jackson and a Mr. Jones, from whom he received affidavits just before coming to court this morning.

"Try to keep at friendly arms' length in this case," said the Judge.

GUARD HEIRS' PROPERTY

Court Says Infants' Rights Must Be Protected and Realty Cannot Be Sold For Widow's Maintenance

When V. E. Hughes, attorney for Mrs. Joseph Enos, widow of a former city parks employee, applied to the Supreme court to-day for a vesting order and permission to sell some of her children's property, Mr. Justice Gregory turned down the application until greater need is shown for selling the property.

"It is her duty to support her infant children and because an infant child has property is no reason why it should be sold to maintain herself," said the judge, who added that the children's property had to be protected.

Mr. Hughes explained that Mrs. Enos is operating a boarding house, and that the minor children are 13 and 18 years of age respectively.

COMPLETING TOUR

Dr. Alexander MacMillan, of Presbyterian Church, on Visit to City.

Rev. Alexander MacMillan, D.D., Toronto, secretary of the General Association of Ministers of the Church of Canada, was in the city to-day after an extensive lecture tour of mainland and island points in which his work has been to elevate the spiritual life of the people, and to bring the church to the various church centres and communities.

The Rev. Doctor holds the position of travelling minister-instructor, and states that his "parish" is continent wide. From a course of lectures of the subject of church prayers rendered at the Westminster College, Vancouver, Dr. MacMillan crossed to Nanaimo, and has worked his way south to this city, visiting every Presbyterian church enroute. After completing his lecture here, the divine will proceed to Edmonton and Winnipeg, where he will undertake another series of lectures to theological students at those points.

SHIPBUILDING AND TRADE UNION UNREST

Vancouver, Sept. 27.—Unless negotiations now under way between local shipbuilding and metal trade interests on the one hand and the labor unions on the other terminate successfully before Saturday next, there is a possibility of a strike involving approximately 2,500 men being declared here next Monday.

The men are asking for an increase of 15 per cent. The demands being made by the unions call for a rate of one dollar an hour.

In many States it is a penal offence to strike in the city streets, and they endanger not only the driver, the passengers and car but the public as well.

Favorable Outlook For Steel Industry

Vancouver, Sept. 28.—The project for the establishment of an iron and steel industry by English capital on this coast is going steadily ahead, it was stated to-day.

James Findlay, ex-mayor, has received news that Walter D. Rock, who has the project in hand, sailed for this country on September 22 aboard the Empress of France. He is due in Vancouver between October 10 and 15.

"Mr. Rock has been working continuously on this matter and it now looks favorable," said Mr. Findlay to-day.

FROM LAND OF AFRICAN PIGMIES

Story Told by Catholic Missionary and Scientist On Return

From the African jungle, which he entered last Thanksgiving Day, the Rev. Dr. Leonard John Vandenberg, Catholic missionary and scientist, has returned to America. He brings back photographs and scientific data about a lost race of pigmies who had never been visited by white men and yet showed evidence of a primitive civilization.

This tribe known among the natives around Lake Albert Nyanza as the Mambuti averages four feet in height, says Dr. Vandenberg. Specimens of their teeth first seen 20 years ago by Sir Hardy Johnson, the British scientist, who, however, was unable to trace them to their habitat. Dr. Vandenberg, who was accompanied by Dr. George Burbank Shattuck, formerly professor of geology at Johns Hopkins and Vassar, brought back several hundred photographs and 35,000 feet of motion picture film.

Priest Among Natives.—Dr. Vandenberg was for nine years a priest of the Roman Catholic Church among the natives of the Uganda, and is considered an authority on certain phases of native life. His expedition was financed by the Famous Players-Lasky Corporation in order that motion pictures might be taken of the natives and was undertaken with the approval of the Museum of Natural History and other scientific bodies. Much of the data collected will be turned over to the museum for permanent exhibit.

The members of the party say they have preserved in motion picture form an important record of the physical and anthropological and ethnographic data never before obtained and which will be impossible to get in the future because of the rapid spread of the white man's influence.

In telling of the discovery of the lost race of pigmies, Dr. Vandenberg asserted that in the course of evolution those people have been pushed back into the Congo jungle by the larger and more powerful tribes who have usurped the more desirable positions on the western shores of Lake Albert Nyanza. Because of their inability to cope physically with their neighbors, however, Dr. Vandenberg says he notices a development of cunning which places the pigmies in striking contrast with their neighbors.

Are Sort of Spiritualists.—He declares they believe in the existence of the spirit after death, and have evolved a sort of religion which might be termed spiritualism. They believe in magic, and communicate with the spirits of departed friends and relatives, and that the spirits communicate with them. In this connection he asserted that they have a device not unlike the ouija board, by means of which they believe they can talk with the dead.

Although the women are held practically as slaves, Dr. Vandenberg declares there has recently been a feminist movement, and that women are becoming believed with life in the darker parts of the jungle and are agitating a migration out of the jungle into the sunshine. Possibly because of this independence of women, said Dr. Vandenberg, the pigmies, unlike all other African natives, are monogamous. They also have a code of morals.

DIED FROM SELF-INFLICTED WOUND

Winnipeg, Sept. 28.—Philip Markinson, 20 years old, who shot himself on Monday evening with a .22 calibre rifle, at his suite in an apartment block here, died early to-day. No explanation of his action could be given by his friends, who stated he appeared to be in his usual health.

CRUSHED TO DEATH.

Toronto, Sept. 28.—Gilbert Jones, fourteen years old, messenger, was crushed to death by a freight elevator in the factory of Hamby & Wilson yesterday.

TO HAVE SECOND AIR STATION

A Sub-Station to Be Established at Kamloops to Aid in Forestry Patrol

Advices from Vancouver state that the Air Board contemplates opening a branch of the B. C. Government flying operations at Kamloops, where a permanent site is to be selected for a substation to work in conjunction with the main government station at Jericho Beach, Vancouver.

The first tests of the government machines are being made now, and one of the first flights is one to Kamloops to open up a permanent landing ground there. In addition to entomological survey to aid in the mosquito warfare in the Fraser Valley the Jericho Beach machines are shortly to fly to this city in a test of the conditions across the Gulf.

The government machines are not to be first in the field, however, as several private machines today are making the trip in the last two years, since the cessation of hostilities brought the flying men back to this province.

OTHER COMPANIES MAKE REDUCTIONS IN PRICE OF CARS

New York, Sept. 28.—Action of the Ford and Franklin motor companies last week in cutting the price of their products was followed to-day by announcement of reductions by the Willys-Overland, Hudson and Studebaker concerns.

PLANE AT EDMONTON ON RETURN ALASKA-NEW YORK CRUISE

Edmonton, Sept. 28.—The United States army plane No. 4, which arrived here from Jasper on Monday afternoon—on its home-to-New York trip, will leave Wednesday morning for Saskatoon. Weather conditions appear favorable and the flyers are determined to take advantage of them.

MASTER IS DROWNED WHILE DOCKING SHIP

Vancouver, Sept. 28.—The provincial police have been advised by telegram from Constable Hadley, of Powell River that Captain J. B. Kelly, of the steamer Wakana, of Seattle, was drowned at the wharf at Powell River yesterday at 11.45. Owing to the strong current the body was carried away and has not yet been recovered. Deceased's relatives live in Seattle.

VANCOUVER ISLAND NEWS

Nanaimo.—The officers of the newly-organized Nanaimo Rifle Association, are: Captain E. R. Bell; first lieutenant, W. Ferguson; second lieutenant, F. Dods; secretary, H. Gough; treasurer, Robert Adams. The school board will be approached to grant the use of the school for indoor practice, and the association will endeavor to get a reduced rate on ammunition for the members. The enrollment included E. R. Bell, E. W. Harding, R. Adams, J. Y. Taylor, W. Jones, Leake, Turley, C. Murch, H. Wall, W. Ferguson, H. Gough, F. Dods, T. R. Jackson, J. R. McKenna, D. MacCier, J. Sumpton, Russell, Gray, Westwood and J. Beck.

Boys' Work.

Nanaimo.—C. B. McKinnon, County Secretary, and T. H. Hutchison, of the Provincial Council, Y.M.C.A., are presenting the claims of boys' work to Cumberland and Courtenay during the next few days.

Cumberland Hospital.—The Women's Auxiliary of the General Hospital intend holding a tag day on behalf of the hospital on Saturday, October 9. Committees are being appointed to handle the affair at Union Bay and Bevan.

Boys Bank Site

Ladysmith.—The announcement that the Royal Bank of Canada has purchased the corner belonging to the heirs of the late Colin Campbell must be regarded as a source of congratulation to the citizens of Ladysmith who have the interests of the city at heart, says the Ladysmith Chronicle. The site just purchased by the bank is one of the best in the city and is located at the corner of Gatacre Street and First Avenue. Previous to the fire eight years ago which destroyed the Masonic building, the site was occupied by Wallers & Aikenshead as a store, but since that time has remained vacant. It was understood that several offers had been made for the lot, but for one reason or another no arrangement for its transfer could be arranged.

There Are Things That You SHOULD Know—

If you are not a mechanical expert you will find it difficult to tell the difference between two phonograph motors. You probably are too busy to verify salesmen's sweeping statements regarding tone, quality, etc. As a matter of fact, all you really need, to know is that the phonograph bears the trade mark

The Highest Class Talking Machine in the World

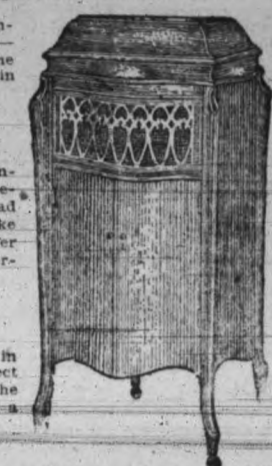

You may not know that the Sonora's tone arm is ALL BRASS—not like other phonographs' tone arms, made of zinc, lead, tin casting.

You Don't Need to if You Buy a Sonora

You may not know that the Sonora's cabinet sides are three-quarters of an inch thick instead of three-eighths of an inch, like most other makes. This heavier wood insures a lifetime of perfect service.

You Don't Need to if You Buy a Sonora

because no expense is spared in the Sonora to make it a perfect musical instrument, worthy the respect that you would accord a good piano or violin.

Can You Save \$80 Per Annum?

For 4 years and get the "start" for a good farm on Vancouver Island?

Don't you envy the man that has a ten-acre "patch" under fruit with a nice little home on it? It is not in and out of work and hunting jobs all the time, and remember that his farm had to be "cut out of the woods" and in some places this meant far worse clearing and breaking than the land we are offering; now what is it worth? \$80 to 3,000 dollars per acre; and the owner is getting a comfortable and profitable living off it.

Start While You Have the Opportunity

Invest \$80.00 now for 10 acres and \$50 each year for 4 years until you have paid

\$400.00

No interest to worry about; then put your slack time and spare dollars

TO WORK FOR YOU

and improve it and very quickly. You will be independent of the labor market, and be like the owner of the place you have so often envied, especially

WHEN YOU HAVE BEEN OUT OF A JOB

Come and see us and let us arrange for you to see the land.

DON'T PUT IT OFF—DO IT NOW

Vancouver Island Fruit Lands, Ltd.

109-111 Belmont House, Victoria, B.C.

VICTORIA CITY, 1920 TAX SALE

Of Improved and Unimproved City Property will be held on

TUESDAY, OCTOBER 5TH, 1920

at 10 a.m., in the Council Chambers, City Hall.

At the above time I will proceed to sell by public auction all real property in arrears for 1918 and previous years, together with all properties in default on which taxes are being paid on the installment plan.

In order to prevent real property from being sold, it will be necessary before that date to pay:

CLASS "A"

Those who are paying arrears on the ten yearly payment plan must have paid each installment due, including that due on the 15th September of the present year, together with interest at 5%; and all taxes, General and Local Improvement, for the years 1918 and 1919.

CLASS "B"

Those who owe arrears of taxes, either General or Local Improvement, for the year 1918 or any previous year must pay in either of the following ways:

1. All arrears to the end of 1918 and interest at 5%.

2. Or all arrears to 31st December, 1919, in full, in which case 10% of all General Taxes will be deducted, and the interest on same will be cut in half.

3. Or ten per cent. will be deducted from the General Taxes and accrued interest thereon if One Tenth of the remainder, together with interest at six per cent. from the 1st January last is paid. Nine years will then be given to pay the balance (one tenth each year). Interest on these payments will be charged at six per cent. instead of eight per cent.

Tax Notices for 1920, showing all payments in arrears, due and accruing due have been sent out according to law.

Bring your Tax Notice to me at once and get statement of exact amount you will require to pay under your choice of the above settlement plans.

Investors and others may secure lists of properties liable to be sold at this Tax Sale at my office any time after September 17th, 1920.

IMPORTANT

Owners not liable to have their properties sold in this 1920 Tax Sale but who owe arrears for 1918 only, or any previous year or years, may settle on either of the last two plans. These are money-saving and payment plans and will avoid danger of next year's Tax Sale, but must be taken advantage of before October 5th. On October 4th these options cease.

Don Jose Captures Prior Handicap in Hot Finish

Had Hard Struggle With Ike Mills Over Best Part of Six Furlongs; Tom Goose, Heavily Played Favorite, Was Never In Running; Outsiders Won Seven Out of Eight Races.

Don Jose, Mrs. Rettig's fleet chestnut, won the Governor Prior Handicap at the Willows yesterday afternoon after a thrilling drive down the home stretch with Ike Mills, of the Land stable. Both these horses were outsiders, but they had little trouble in landing off the rally of the heavily-backed favorite, Tom Goose.

The handicap, which was over six and one-half furlongs, drew the fastest field of long distance horses that has faced Starter Haley during the meet. Few of the racing fans could see anything but Tom Goose, due to the fact that he won his races last Tuesday and Wednesday by several lengths and the fact that he had not been out since. The track was heavy and this further favored the big bay.

At the break of the barrier McEwen rushed Don Jose to the front with Ike Mills holding second place and Tom Goose running third. At the water tank Don Jose ran wide and carried most of the field out. Ike Mills held the rail and was favored by the move. Lowe put the Land entry through and held the lead down the back stretch to the last turn when McEwen lengthened Don Jose's stride and passed under the wire with half a length to the good.

A Poor Start.
Minnie H. romped over the mile, the sixth race, in easy style and was the only favorite to get down in front during the afternoon. The

horses got away to a very bad start, Bonnie's Buck being out of the bunch when the gate was sprung. Minnie H. had four lengths to the good before the first turn. The horses spread out over the course. Smith rode Minnie H. carefully and was content with a few lengths on Miss Sovereign. Rowe rode Bonnie's Buck steadily during the first lap, but on failing to gain much ground he forced the gelding on the second trip round. He came from fourth place to second and, on the last turn, came up rapidly, but the distance was too short to catch the favorite.

Favorites Out of Luck.

The favorites were out of luck all afternoon. George Pearson was the first long shot to the winning post, leading the fast field in the opening race. Once again Bridal Veil raced a strong favorite, but she was frozen out of the money. George Pearson made every post a winner and was

Rugby Season to Open With Two Games on Oct. 16

Arrangements have been made officially to open the Rugby season in Victoria on Saturday, October 16. Four teams will play in the league this year and judging from the enthusiasm shown at the general meeting of the Victoria Rugby Union held yesterday the season promises to be exceedingly interesting and will be back on a pre-war basis.

The four teams which have entered are: Wanderers, last year's champions; J. B. A. A. University School Old Boys, and V. I. A. A. These teams have lined up a very brilliant array of playing material and the league will most certainly be better balanced than it was last season. The V. I. A. A. decided not to enter the Rugby field this year, so it is expected that many of the fast men who played with this team last year

will line up with the V. I. A. A. while others will find places on the line-ups of the remaining teams.

Four teams is plenty for Victoria and will permit of a splendidly balanced league. Judging from the calibre of the players so far signed the Wanderers will find the going much harder than they did last year. The University Old Boys have some fast men who know the game thoroughly, while the Bays, always a husky and hard team, have strengthened themselves considerably this year.

The Wanderers and the Bays have arranged to play a practice game on Saturday afternoon at Oct. Bay. The Wanderers are losing no time in getting into shape. Last Saturday they won from the Naval Cadets at the Caten Grounds and showed that they are in fine shape to open the season.

tuels paid, straight, \$17.60; place, \$4.40; \$2.50.

Brooklyn Captures National Pennant
Won Title Although Idle, Result of New York's Defeat By Boston

New York, Sept. 28.—Brooklyn won the championship of the National League yesterday, although idle, as a result of New York being defeated by Boston here in the second game of their double-header.

New York's last chance to even tie Brooklyn slipped away with the loss of the second game. Each now has four games to play and if the Giants win all of theirs and the Superbas lose four, the final standing would be:

Brooklyn won 96, lost 64. Pct. .554.
New York won 89, lost 65. Pct. .578.
Cleveland has best of it.

All three leaders in the American race won yesterday. Cleveland, which has a half game lead over Chicago, has six games to play and if the Indians win half of them, the White Sox must win their three remaining games with St. Louis to get first place.

While it is mathematically possible for New York to pass Cleveland, the Yankees can only tie with Chicago. The local team has two games to play and by winning them, while the two Western teams lost all their contests, New York would be on even terms with Chicago, and a game ahead of Cleveland. A victory by the Chicago White Sox or a defeat for the Yankees will put the Eastern team out of the race.

American League.
St. Louis, Sept. 28.—Cleveland continued its drive for the American League pennant yesterday, defeating St. Louis 8 to 4 and retaining the half game lead over Chicago.

Of the latter's victory over Detroit. Mails held St. Louis at his mercy except in two innings, when seven hits were bunched for four runs. It was his sixth straight win.

Slater drove in three runs and scored the other, his three hits bringing his season's total to 248, tying the American League record made by Ty Cobb in 1911. Manager Speaker was presented with a floral homage by local admirers on his first time at bat.

Kerr Too Good.
Chicago, Sept. 28.—With "Little Dick" Kerr pitching masterly ball, the Chicago White Sox continued their victorious march in the American League pennant race, defeating Detroit 2 to 0 yesterday in the final contest of the season here. The victory was Chicago's tenth in the last eleven games.

Kerr did not allow a man to reach third base and never was in danger. Daus also pitched splendid ball, allowing only one hit up to the sixth inning. After he had hit Weaver in the sixth, however, Eddie Collins and Joe Jackson knocked out long singles, which, coupled with a poor return by Cobb, produced Chicago's only runs.

Ayers relieved Daus in the eighth, after Hale, a pinch hitter, struck out for him. Outside of the sixth inning only one Chicago player reached third base. The game was unusually fast, being finished in one hour and fifteen minutes.

Two More For Babe.
Philadelphia, Sept. 28.—Ruth's fifty-second and fifty-third home run drives scored all the runs yesterday in New York's 3 to 0 victory over Philadelphia. Ruth hit two other liners to left and center, which were caught close to the boundaries of the playing space.

Say Cicotte Agreed to Throw World's Series

Details Given By Maharg, a Philadelphia Boxer, Credit Chicago Twirler With Agreeing to Fix 1919 Series For \$100,000; Cicotte Denies Charges; Others Involved.

Chicago, Sept. 28.—Investigation of accusations that members of the Chicago White Sox had "thrown" the 1919 world's series was resumed to-day by the Cook County Grand Jury, with Presidents Johnson, of the American League, and Heydler, of the National League, expected to be the leading witnesses. Two other witnesses for to-day, according to announcement by Assistant Prosecutor Hartley Replogle, are Mrs. Henrietta D. Kelley and Dr. Raymond B. Prettyman. Several of the White Sox players roomed at Mrs. Kelley's boarding house and she was questioned about their conversations. Dr. Prettyman, White Sox team dentist, declared he could produce evidence of an attempt to persuade Weaver to "throw" game.

Subpoena Sportsmen.
Manager Hughie Jennings, of Detroit, and President August Herrmann, of the Cincinnati Reds, will appear later in the week to testify, Replogle announced, and subpoenas have been issued for many others prominent in the sporting world.

The White Sox, being idle until next Friday it is expected that some members of the team may be called. "Kid" Gleason, manager, and Ray Schalk, star catcher, having been already summoned.

Tells of Fixing.
Statements published here to-day say that Billy Maharg, former boxer of Philadelphia, gives details by which the series was "fixed." Maharg's story said he and Billy Burns, ex-major league pitcher, were approached by Pitcher Eddie Cicotte, who offered to arrange with other White Sox players to "throw" the series for \$100,000. Maharg said the White Sox players were "double-crossed" out of all but \$10,000, and he and Burns also were deceived by Abe Attell, former featherweight champion, who acted as go-between with the betting ring.

President Comiskey, of the White Sox, telegraphed Maharg, offering him \$10,000 for substantiation of his accusations.

The grand jury has summoned Attell, Arnold Rothstein, New York racketeer, and others involved in Maharg's story.

Cicotte Denies Charges.
Cicotte denied Maharg's charges, but refused to say more than that the accusations were not true.

New York, Sept. 27.—John J. McGraw and Francis K. McQuade, manager and treasurer, respectively, of the New York National Baseball Club, to-day accepted a telegraphic request of the Cook County, Illinois, grand jury to testify in its investigation of alleged baseball gambling.

First Games of World Series to Be in Brooklyn

Chicago, Sept. 28.—The National Commission to-day reversed its decision of yesterday and decided to open the world's series at Brooklyn, October 1, playing three games there. The change was made at the request of James Dunn, president of the Cleveland club, who asked more time to prepare the Cleveland grounds in the event his team should win the American League pennant.

The teams will travel on October 8 and open in the American League city winning the pennant, either Cleveland or Chicago, October 9, for a four-game series.

Brooklyn obtains the eighth game October 14, and will also stage the ninth game, if one is necessary, as the National League yesterday won the toss for the final game. If a ninth game is played, however, it will be on October 15 instead of October 16, as the day's intermission for travelling has been eliminated.

Football Association Meets This Evening

The regular weekly meeting of the Victoria and District Football Association will be held at the G. W. V. A. club rooms, Fort Street, this evening at 8 o'clock. As matters of considerable importance will be discussed all representatives are requested to attend.

More Convenient.
Little Betty was staying with her grandmother in the country. Just before dinner-time one day she discovered that chicken was to be the principal attraction.

"Oh, where'd you get the chicken, grandma?" Betty asked, very excitedly.

"In the poultry-yard," the old lady replied. "You remember the chickens you saw this morning don't you?"

"Certainly, well, she killed one of them."

"Oh, did you?" exclaimed Betty, in surprise. "We buy our chickens ready-made."

SPORTS NEWS

EACH LACROSSE TEAM
EXPECTING VICTORY

New Westminster and Vancouver to Play Thrilling Match at Royal City

Vancouver, Sept. 28.—Harry Godfrey will be referee in today's Minto Cup match at New Westminster, and Wells Gray judge of play, according to a ruling by President Frank J. Burd.

"We expect to win the series handily," said Manager T. Gifford in a statement last night. "We will field the same team which trimmed the Vancouver on Labor Day, and every man is in fine condition."

"We realize that a tough session is before us," Manager Pickering said. "We have beaten the Royals on their own grounds twice this year and our fellows feel they can repeat. We expect to win the cup."

The ball will be faced this afternoon at 2:30. Exhibition officials plan to start the game promptly on time. The fine weather of Monday dried out the oval, and if there is no more rain the field will be fairly fast.

FIVE CLUBS FIGHTING
FOR COAST PENNANT

Vernon, Los Angeles, Salt Lake and San Francisco in Final Dash for Flag

San Francisco, Sept. 28.—Five Pacific Coast baseball league clubs, Vernon, Los Angeles, Seattle, Salt Lake and San Francisco, are all bunched within fighting distance of the 1920 pennant, with the season but three weeks to run. Followers of the game say that never before have five clubs figured in the final coast championship dash.

Vernon, 1919 champions and present leaders of the league, this week will defend its position on its home field against San Francisco. Los Angeles plays Oakland here. The Seattle club, which since the middle of the season, has advanced from last to third place, meets Portland at Seattle.

Salt Lake plays Sacramento at Sacramento. Although in last place the Senators are considered dangerous, as they hurt Seattle's pennant chances by winning in Sunday's double-header in the North.

STILL LOOKING FOR HIM.
"Jones," said the manager of a bank, "there'll be a vacancy at the head office shortly, and I'm thinking of nominating your twin brother for the job."

"My twin brother, sir?" exclaimed Jones. "But—"

"I mean the one I saw watching a cricket match yesterday, while you were at your aunt's funeral," said the manager.

"Oh—er—yes," said Jones. "I—I remember, sir! I'll go and fetch him!"

"Good!" said the manager. "And don't come back till you've found him!"

APPROPRIATE COLORS.
"You say that pretty little woman was a recent widow. Why, she is wearing a green suit."

"I forgot to say she was a grass widow," Baltimore American.

HANDSOME ST. CHARLES STREET HOME NOW BUILDING

Contractors, under Architect P. Leonard James, have started work erecting the \$40,000 residence for Harry F. Bullen on his St. Charles Street property. This extensive house, which is the largest undertaken in Victoria for several years, will take the place of the two houses now occupied by the Bullen family on St. Charles Street. After the house is completed gardens will be laid out in ornamental style. The exterior walls of the house are stuccoed on a patent lathing, new to this part of Canada. The building will be heated by hot water supplied by a water tube boiler. The interior treatment is in the "Adams" style.

LETTERS

Letters addressed to the Editor and intended for publication must be short and legibly written. The longer an article the shorter the chance of insertion. All communications must bear the name and address of the writer, but not for publication unless the writer wishes. The publication or rejection of articles is a matter entirely in the discretion of the Editor. No responsibility is assumed by the paper for letters submitted to the Editor.

INDUSTRIAL PROGRESS.

To the Editor:—There have recently appeared in the daily papers some news items and correspondence, emanating from the Rotary Club, John Day and others, which corresponded to being in harmony with the progress, though apparently approaching to controversy, is in the public interest, of a progressive nature, and much nearer to being in harmony than superficially appears to be the case. John Day is right in saying that if ten good men from the Rotary Club, or any other representative Victoria organization, would in earnest undertake the task, they could create a new era and wonderful development in Victoria's industrial progress; but the Rotary Club is also right in claiming that these ten men in undertaking public service are entitled to, and if they are to render service of full efficiency, must have the respect and confidence of the public, and that criticism to be valuable must, usually at least, be constructive, and not destructive, nor abusive, nor ridiculous.

I endorse the assertions of John Day and the Rotary Club, contained in the foregoing paragraph, and could relate a good many Victoria incidents in substantiation. By all means let somebody appoint (or let them appoint themselves) a live, new-blooded, industrial committee, and let the rest of us support them, whether they work as an independent committee, or whether they join with some of the older organizations, at least two long-established Victoria institutions, both of which have done, and are still doing, excellent work, would be glad to have an infusion of enthusiastic new blood of this nature, composed of individuals determined to re-draw Greater Victoria's industrial map.

Probably never before in the history of Victoria were the possibilities of industrial expansion greater.

THE ACT A FAILURE?

(No. 3)
September 25, 1920. A. E. TODD.

To the Editor:—If a partial prohibition Act can accomplish what there is herein stated, is it not reasonable to suppose that with the privilege of importation cancelled we might hope for still further progress? Read what a Catholic clergyman has said: "The homes of my people have improved and are more prosperous. The Catholic Children's Aid Society at its last annual meeting reported that cases of destitution and delinquency among children are distinctly diminished owing to prohibition legislation," and if you are really interested in getting at the facts of the case, read on. Others have an equally satisfactory testimony. The Anglican Bishop of Kootenay says: "The groups of loafers hanging around the hotel bars are noticeable by their absence." So much from two representatives of two great churches.

Now, let us hear from the Mayor of our own city. The police records show a gratifying decrease. I know of many families that are having a happier existence. The Mayor has substantial reasons for this statement, as the Chief of Police in his last annual report states: "There were 587 drunken persons arrested, while in 1919 ten cases of drunkenness were brought before the court." And now from the Superintendent of Provincial Police: "On account of the small number of persons arrested, it has been deemed advisable to close three of our jails, now four are closed." And lastly, from the Premier: "There is a greater volume of cash business, and the collection of old accounts, that were considered no good, has been a noticeable feature of the coming into force of prohibition. The consensus of public opinion will be found unfavorable to any change which would have in view a relaxation of the present restrictions regarding the sale of liquor. I do not hesitate to affirm that I align myself uncompromisingly on the side of prohibition."

Who can be believed if not the authorities above quoted? To say that the present Act has been a failure is to speak contrary to the evidence produced. It has been altogether too great a success for our "Moderation" friends. It has been all too moderate in its results in cleaning up our Province, and evidently decreasing revenues derived from brewery stock. It is beginning to pinch. The hope of their gains is being demolished, while our mothers are being protected and the kiddies are getting a better chance to fight the battle of life. Let me repeat, the present Act is altogether too successful for those who from the house-tops deride its effectiveness.

ERNEST A. HALL.

SUBSTRUCTURE
PLANS APPROVED

City Engineer Wires Regarding Progress on Johnson Street Bridge

That City Engineer Preston has made substantial progress in his effort to secure a settlement with the Canadian Pacific Railway with regard to the Johnson Street bridge was intimated in a telegram read to the Council yesterday afternoon.

The message stated that the C.P.R. had approved the sub-structure plans of the bridge. The text was as follows: "Leaving to-day for Ottawa for appointment with Railway Commission engineers Monday. Sub-structure plans approved by C. P. R. and other details settled. Expect to leave for Chicago on Wednesday."

Any car owner who desires to use the oxygen method of removing carbon from the cylinders of his engine can make an apparatus for this purpose at small expense. The basic equipment is an oxygen bottle, of the type used by physicians holding thirty cubic feet of the gas. With four or five feet of rubber paratus is complete. The bottle is about eighteen inches long and the whole outfit may be carried in the tool box.

MOTOR SERVICE
WILL LINK 500
ENGLISH TOWNS

Commercial Transport System To Extend From Dover to Wick

London, Sept. 25.—A scheme whereby 500 towns in Great Britain are to be linked in one commercial motor transport system is soon to be launched by the Automobile Association. The area covered will be between Dover and Penzance, on the south coast, to Wick, in the north of Scotland. About 600 agents will act as clearing houses, registering requirements of local manufacturers and traders, providing return loads for vehicles and thus eliminating dead mileage and economizing in running costs.

Hitherto only large centers had clearing houses, but under the new scheme outlying districts and all existing organizations will be linked for the same purpose.

Captain Montgomery, who is responsible for the scheme, says that it will provide Great Britain with a road transport system without a parallel in the world, and one that will relegate the railways to a position of secondary importance in transport services. It will not only speed up and reduce cost of transport, but it will reduce railway freights and enable goods to be carried from door to door.

Reduces Freight Rates.
Loss of time in sidings will be eliminated and farmers and others in remote districts will be able to get their goods collected, or delivered, by applying to the nearest agent. Although during the war some of the more im-

portant industrial centres as Leeds, Liverpool or Manchester, were linked up by motor transport and several of the services are still kept up, their efforts are mainly local and thus of benefit only to small areas.

ANOTHER LIFE
INSURANCE FIRM
BEING PROMOTED

Winnipeg, Sept. 28.—Announcement is made from Toronto that a new life insurance company will be promoted in the Dominion this fall with a capitalization of \$1,000,000.

The new corporation which will be known as the Ontario Equitable Life and Accident Company, takes its name from the Equitable Life, one of the largest insurance companies in the world, which is withdrawing from Canada. A number of Eastern representatives of the Equitable of New York will be associated in the new enterprise.

S. C. Tweed, of Waterloo, and a former Manitoba resident, will be the general manager and will visit the West shortly to interest Western people in the enterprise.

A SAD TRAGEDY

It often happens your sore corn is stepped on. Why not use "Putnam's Corn Extractor." It cures in one day. Absolutely no pain with "Putnam's." Use no other, 25c, at all dealers.

MUCH PRIZED ROTARY
TROPHY FOR SEED GROWING
WON BY NORTH DAIRY SCHOOL

at the Theatre

DOMINION

Folks who claim that free-spending actresses have had their share in raising the high cost of living, will have to make an exception in the case of pretty Alma Rubens, who is showing at the Dominion Theatre to-day and to-morrow as the featured player in "The World and His Wife." I've only been in New York a few months, you know," said Miss Rubens recently. "The wonderful thing about the city to me is where the people get all their money. Every body seems to have it and even everybody's spending it. My apartment is just a few blocks off Fifth Avenue, and visiting the shops there is a revelation. They are full of newly rich women tumbling all over each other to pay the fancy prices they are charged for things. If the financial crash, which some people are prophesying, really comes I am sure such families as these women represent won't have a cent to fall back on."

PANTAGES

Frank Keenan's latest Pathe feature, "Dollar for Dollar" showing to-day at Pantages Theatre says that all men are possible criminals and all criminals are possible men. Marcus Gard stood high in the eyes of his fellowmen, yet his methods of bribery and extortion in business were criminal. Mrs. Marteen, an old leader of her social set, yet her blackmailing made a criminal of her. "Dollar for Dollar" promises to be one of the most powerful Frank Keenan pictures which is saying a great deal.

COLUMBIA

"To-night my people dance. If you come there may be a dance for you—perhaps a kiss!" Oh, beautiful Senorita! You who refused your lips to one of your own people because you were saving them for the man you would love offered them freely to an American—a hated "Gringo"—a Texas Ranger and enemy of your father! It was a dangerous, dangerous adventure, this dance and a kiss—but Danny was fearless and he loved in love, so he went! If you are interested in Danny's reckless daring and Maria Inez's spirited romance, who will find the whole story, in all its ruggedness and vividness on the screen at the Columbia Theatre to-day, where "Rio Grande" is the feature on the new programme. Edward Carewe, producer and director, adapted this Pathe picture from Augustus Thomas's famous play. The all-star cast is headed by Rosemary Theby and Allan Sears.

VARIETY

Lewis J. Seitznick presents Constance Talmadge in one of her latest, fascinating drawing-room comedies, "A Lady's Name," which select Pictures will offer to the Variety Theatre again to-day. The combination of scenarioist plus director have helped to make "A Lady's Name" the excellent picture that it is. Justin Crawford Ivers, who wrote the scenario version of the picture, is the author of numerous scene successes. It was she who wrote the "Tom Sawyer" pictures in which Jack Pickford starred and her skill in scene-arranging the Marx-Twain classic and other famous novels and plays led to her selection as the author of the light comedies in which Miss Talmadge has recently been starred.

Walter Edwards directed the picture. Mr. Edwards has come to the front as the director of enchanting comedies in which Constance Talmadge has been so successful.

LAUGHS AND DANCES
IN HELLO ALEXANDER

Minstrel Show of Finest Type Highly Pleases—Jokers and Beauties Compete

The finest minstrel show staged in recent years in Victoria was presented last night at the Royal Victoria Theatre, "Hello, Alexander" being full of snap from the first rise of the curtain.

As with all the productions of the Schuberts the extravaganza is staged with an eye to the spectacular, the large company of pretty girls which dominate the chorus presenting rich costumes in great variety.

McIntyre and Heath are the central figures of the entertainment, and as blackface comedians they have earned a countrywide fame, and their witty dialogue kept the house in continuous laughter whenever they had the stage.

It is this alternation of pretty dances with sparkling repartee which keeps the interest of the audience so well. There is a vestige of a plot which strings the show together, this being the efforts of Heath, as the proprietor of Jones Minstrel, to inveigle McIntyre, as the ever hungry roustabout Alexander, back to the joys of a touring minstrel.

On this slender string is threaded a series of dances and songs which lead up to a central minstrel, splendidly costumed in striking black and silver, this closing the first act and drawing sustained applause.

The second act gives opportunity for the interpolation of a number of specialties, and what with dancing, vaudeville turns, snappy patter by the two principals, and singing and drilled dances by the gorgeous chorus, there is little to choose between the merits of the two sections of the show.

While the audience last night was distinctly below the average of the Royal Victoria, the show is such an excellent affair of its type, and received such continued applause, that it is assured of a capacity-house to-night, when it will be repeated for the last time.

SYMPHONY HERE
AT ARENA TO-NIGHT

Minneapolis Orchestra Recital Will Be One of Season's Musical Features

George J. Dyke has brought to the Arena for this evening, the Minneapolis Symphony Orchestra. This will be the first opportunity of hearing one of the greatest musical organizations in America.

With eighty-five talented artists, under the baton of Emil Oberhofer, an excellent concert is promised.

At the assisting artist Florence MacBeth will make her first appearance in the Northwest. Miss MacBeth is well known as one of America's leading soprano singers and is again appearing in the "Minneapolis Nightingale," which she has been with the Chicago Opera Company for several years as coloratura soprano and sang with Madame Hall-Curtis on many occasions in Chicago and New York.

Emil Oberhofer, conductor of the Minneapolis Symphony Orchestra, occupies a unique position in the musical world to-day. The Minneapolis Symphony Orchestra is the only one of the great American orchestras which has grown to artistic maturity under the conductor who formed it and which still continues under his baton. Mr. Oberhofer has been the director of the orchestra from its inception, fifteen years ago, and the unprecedented development of this orchestra from its beginning to its present position as one of the greatest symphonic bodies in the world is said to be due largely to his genius, tact and magnetic personality.

Mr. Oberhofer has been called the "best conductor" and his interpretations are said to be remarkable for their clarity, unusual musical insight and a temperamental warmth. Mr. Oberhofer has under his baton a body of players which includes many artists of the highest rank. It is declared. Practically all the members of the Minneapolis orchestra have been brought from the leading musical centers of the United States and Europe.

DUTCH COURAGE.

Someone had knocked a bottle of whisky over, and some of the spilled remained on the floor. For a long time the mice lay with their noses peeping out of the wastocot, dreading the arrival of their hereditary enemy, the cat.

At length, and with infinite caution, one of their number ventured out, and in due course discovered the pool of whisky.

He sipped it, smiled, tasted again, winked, and then attended strictly to business for a few minutes. At the end of which time he sprang on his hind legs, assumed an attitude of attack, and shouted at the top of his mouse-voice: "Now, where's that darned cat?"

HER BEST CHANCE.

"I intend to marry for love," said the girl with the dreamy eyes.

"You are wise, my dear," replied her dearest friend. "Men with money are often so hard to please!"

Scotch Herbalist Accomplishes Wonderful

It is said that only one person out of ten has perfect digestion. That means the nine out of every ten are suffering from indigestion or stomach trouble in some form. It was a state medical man who said this many years ago. He knew that he had been particularly suited to meet such cases and, after years of investigation he evolved a formula which he used as his private practice. The result of this treatment—that its fame spread far-and wide and to-day's prescription, is offered throughout the world—under the name of WOODWARD'S Health Restorer.

The two Juices of Wonder Health Restorer act on the stomach in several ways. They purify the blood; tone up the gastric juice and through the process remove certain raw herbs contained, acted on the membranous lining so as render it healthy; restore it to a normal and healthy condition. The action of the remedy is natural and mild, but that its work is far reaching and most effective is the testimony of thousands who have tried it. In many cases it has cured those more chronic sufferers and numerous instances physicians advised persons who obtained relief through Wonder Health Restorer the troubles in such acute form that nothing was ahead of them—but its operation.

No person who reads the case of Mr. Joseph of Calgary, doubts the wonderful power of the remedy. The unfortunate lady suffered from chronic dyspepsia for twenty years. After six doctors had treated her and she had gone to the hospital she was advised that her case was one of ulceration of the stomach and there was no relief. She took the advice of a friend—however, and started to take Wonder Health Restorer. The remedy gave her the relief she had long sought, and to it she attributes her recovery.

Wonder Health Restorer is sold at Victoria at Ivel's Pharmacy, Mercerfield & Dack (all stores) Clearwater, S. J. Cross, Kelowna, S. J. Cross, Penderwood Pharmacy, in Esquimalt, Lang's Drug Store and at most drug stores throughout British Columbia. If your doctor cannot supply you send word to the W. Y. McCarran Burr Co., Ltd., 646 Hillside Avenue, Victoria. (Phone 8260.)

SINKED SEAPLANE WELL RUNNER

Seaplane G C-Abu Has Lost and Varied Career in Western Flying

Lieutenant Harry Brown, who rescued from drowning after loss of his seaplane, under circumstances reported yesterday, is known here, being one of the Victoria pilots to fly over Victoria and district, with the machines of the local branch of the Aerial League. Some four months ago, partners, Messrs. W. H. Brown and N. A. Goddard purchased the original Pathfinder II from the Aerial League, and formed their own company known as the "Vancouver Aerial Service," Ltd.

The machine was one of the "C" J N 4 type, and operated by present owners as an aeroplane 500 hours in the air, prior to being converted into a seaplane by Messrs. Yarrow Ltd. Esquimalt.

A water landing craft, the aircraft, known as the "GC-ABU," under floor-registration, flew some 100 hours in the air, and covered area of the coastal district from Iona to Prince Rupert.

Lt. Harry Brown returned to Victoria on Saturday from his escape, in which his plucky resourcefulness saved his life, and is on Salt Spring Island. Speaking the mishap Norman A. Goddard, The Times, that his company not in the least dismayed by the happy chance—but would purchase another machine of the same type and fit it out as soon as possible enter the same trade. A large of commercial activity awaits aircraft on the northern coast.

Mr. Goddard, and it is more likely that the Vancouver Aerial Service Ltd. will salvage best part of its original machine, and it will not be harmed by immersion if not left too long

water, he stated; and that represented the most costly part of an entire aircraft.

The machine itself was purchased by the Vancouver branch of the Aerial League of Canada from F. Erickson Company in Toronto, and operated by them until being bought by the local branch of the League when it came to be known as "Pauline." It was in flying time on the coast alone is in the neighborhood of some 4,000 hours, during which time it has covered a distance of some 10,000 miles. In that period of useful service the machine has twice been slightly damaged but never has been the cause of any casualty to human life, a fact that speaks for the careful handling of the new type aircraft at the hands of former military aviators.

MAKES HAIR GROW

All drug stores sell DELMAY'S FRENCH HAIR TONIC, and guarantee to grow hair or money back.

The time to take care of your hair is when you have to take care of it. Your hair is getting thin, gradually falling out, it cannot be long before the spot appears.

The greatest remedy to stop hair from falling is DELMAY'S FRENCH HAIR TONIC, the French Hair Grower. First discovered in Paris, DELMAY'S FRENCH HAIR TONIC furnishes nourishment to hair roots and acts so quickly that people are amazed.

And remember, it destroys Dandruff germ, the little pest that saps the life that should go to hair from the roots.

DELMAY'S FRENCH HAIR TONIC a positive guarantee to move Dandruff, is sold by first druggists under stop falling hair itching scalp in ten days, or money back. A bottle costs \$1.00. Sold in Victoria at the Owl Drug Store.

In Louisville, Ky., no person sixteen years of age or older can operate a motor car unless accompanied by owner or a person than twenty-one years of age.

France, Italy and Switzerland producing a large number of cars for exportation.

BELOW are plain directions for effective treatment of a number of simple ills and hurts, for the often occurring cases of which, the average family can not always afford the Doctor's services or, as when traveling or away for the summer, or living on the farm, are situated as to be unable to always obtain his services promptly even if their means permit.

For acute painful stomach and bowel attacks (summer complaint) take a teaspoonful of PERRY DAVIS' "PAIN KILLER" in a glass of warm water, slightly sweetened following the other directions on the wrapper accompanying each bottle.

For sprains, bruises, insect bites and stings, apply the "Pain killer" freely by hand or with a bandage.

For Chills resulting from exposure and cold or damp; take a teaspoonful dose of "PAINKILLER" in a glass of warm water or milk slightly sweetened, just before retiring. The treatment with the other measures given on the directions accompanying each bottle will be found to have a most effective result in the treatment of the following ailments which otherwise often develop into Colds, Bronchitis, La Grippe and Pneumonia.

For children's Croupy and Bronchial attacks.

If a child at bed time shows evidence of such attacks coming over, wrap out a flannel cloth in a cupful of hot water, wring it out and lay it over the child's chest, and apply a few drops of which a teaspoonful of "PAINKILLER" has been added, and wrap this around the child's throat and place over same another cloth. The warmth and drawing power of the "Pain killer" will have a most effectual effect in checking the ailment and inducing sleep, sparing both mother and child a restless night.

PERRY DAVIS "PAINKILLER" has been on the market for over seventy-five years. It is used in nearly every country on the globe by thousands of families of every race for the purposes described above.

Every family and every traveller will do well to have always on hand a bottle of this reliable household medicinal preparation.

Order a package of these delicious corn flakes, but *specify the name.*

ARE you the mother of kiddies whose romping about the house has played havoc with the furniture? Upholstery torn, cut, stained? Frames good, but coverings in a horrible state? Craftsman Fabrikoid will replace the old coverings and make the furniture good as new—in fact it will probably outlast the furniture itself.

Half the furniture you have seen covered with what you believed to be leather was Fabrikoid. It is difficult to distinguish between the two so far as appearance is concerned, for Fabrikoid is grained, pebbled and colored the same as leather. But it has advantages that leather does not possess. Leather must be accepted as it comes from the cow—Fabrikoid is built up to a fixed standard. Leather is hard in some spots, soft in others, absorbs grease and water, becomes stained and frequently rots and tears. Fabrikoid is uniformly the same, yard after yard—pliable, tough and absolutely impervious to water or grease—and above all, costs far less.

Make your furniture upholstery permanent with Fabrikoid. Save money and make the chairs, cushions, lounges and couches kiddie-proof with this attractive covering. Your furniture dealer can supply it—he can do the work. Write us for further information about Fabrikoid and what can be done with it in your home.

Canadian Frabrikoid Limited
